## COMPANY PROFILE

Berger was established two centuries ago and now it has grown to become one of the world's largest paints manufacturer. The history of Berger Paints in Pakistan is as old as the country itself. Berger started its operations in Pakistan in 1950 and was the first organized Paint Company to offer premium products through imports from the United Kingdom.

BERGER PAINTS PAKISTAN LTD. became a public limited company in 1974, when 49.38% of its shares were acquired by Pakistani investors, while the remaining 50.62% were held by U.K. parent company, Jenson & Nicholson Limited. Later Slotrapid Limited registered in B.V.I with diversified business interests, acquired control of Berger

Paints Pakistan Limited by gaining 52.0502% shares of the company.

Berger established its first local manufacturing facility in Karachi in 1955. As the country's economic and industrial sector expanded the demand for quality paints also grew and Berger continued to make extensions in its product range to meet these requirements.

In 2006, Berger established a state of the art manufacturing facility in Lahore. With its head office now located in Lahore, Berger caters to the demands of its valued customers on a national basis.

Consistent quality has always been Berger's trait. This has been the driving force in making it the leading brand name backed by premium quality across Pakistan.

Berger has the most comprehensive product range for various paint market segments at different price points. Berger has earned the admiration and trust of customers by virtue of its superior technology, product quality and a very high level of customized services.

Berger over years has entered into a number of technical collaboration arrangements with leading international manufacturers. These include one of the the largest paint company from Japan, which enabled Berger to develop Automotive, Vehicle Refinishes and Industrial Paints conforming to international standards; a Japanese chemical company, for Bumper Paints; PCS Powders, Protech Oxyplast Belgium for Powder Coatings; DPI Sendirian Berhad, Malaysia for Road & Runway Markings and Cerachem for Construction Chemicals. In 2011, Berger acquired the

distribution rights of DuPont Performance Coatings, now Axalta Coating Systems - Cromax, for Pakistan. In 2017, Berger also acquired distribution rights of another brand from Axalta Coatings by the name of Duxone for Pakistan.

Berger also operates a Resin manufacturing facility at its Lahore factory. The resin plant has high production capacity and has enabled Berger to meet its entire resin needs for the manufacturing of a wide range of quality paints. Berger was the first paint company in Pakistan to have set up its own resin production facility.

Berger has regional sales offices in Karachi, Lahore, Islamabad and Multan. A large team of sales personnel and a wide network of dealers and distributors serve customers in all urban centers across the country.

## VISION & MISSION

## A COMMITMENT TO EXCELLENCE

Berger is the most trusted name in quality paints, specialized coatings and allied products for household, commercial and industrial sectors. The company has built this proud reputation by not compromising on quality standards.

As an ISO-9001-2015 certified company, Berger continues to upgrade and improve its range by introducing innovative products in line with consumer needs.

All products are tested at the company's own facilities before leaving the factory so that the highest quality control standards are maintained at all times. The company also follows a continuous process of investment in new equipment, such as computerized color matching technology, to ensure fast and accurate testing results at all times.

An on-going training system is also in place so that the most rigorous testing methods and procedures can be applied at the finished product stage.

A high standard of paints manufacturing is further ensured by using resin produced at Berger's own plant.

## CUSTOMER SERVICE

Berger is not just a paint company; it offers one window solution across different paint product categories and business lines, in order to meet the demands of its valued customers.

Thorough Berger's Color Advisory Service free color consultancy can be accessed on UAN: 111-237-437 and Berger Helpline Number: 08000-2000. The service is very popular among customers of decorative paints. It offers professional advice on selection of appropriate color schemes and types of paints that should be used on different surfaces and in different environments.

Berger offers professional services to its industrial customers through a highly qualified and experienced Technical Services team. The team consists of highly trained staff in industrial and protective coating products that are offered to customers. The Technical Sales Officers make personal visits to address problems that the customers may be facing and have the relevant paint coating modified or adjusted according to the specific requirement.

## PEOPLE

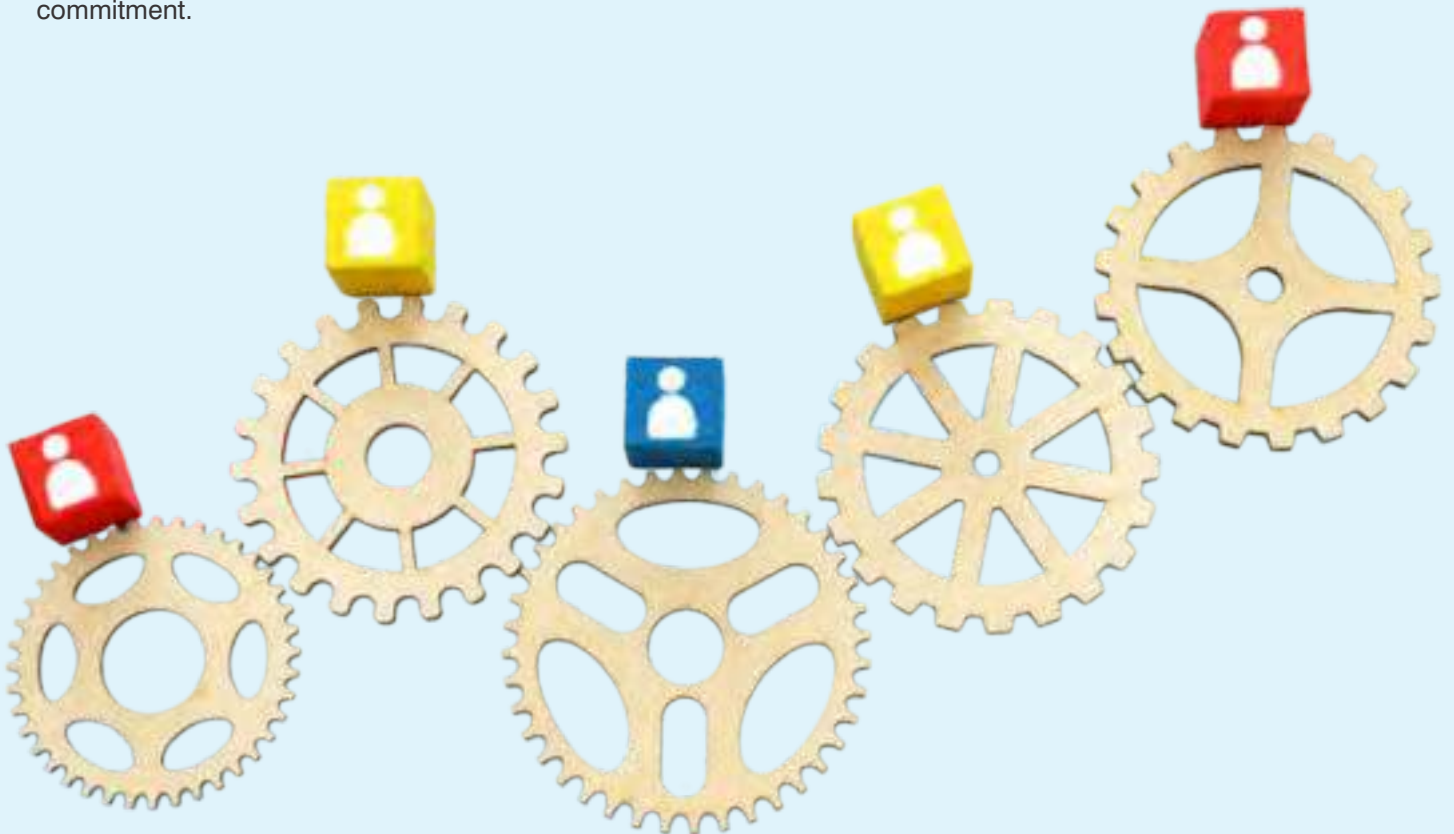

At Berger, we consider PEOPLE as our most precious resource. This belief is gaining importance, leading to a more structured and focused approach in developing Human Resource as a competitive strength.

Our journey for excellence is amply supported by developing a learning organization with continuous capability building and skills enhancement. This is supplemented by a wide range of employee engagement activities and programs which are in-place for morale boosting, motivation enhancement and inspiring commitment. Specific skills are being developed through training and coaching in required areas.

Across all layers in the organization, Berger is promoting a culture of acknowledging talent, nurturing potential and encouraging initiatives. We are maintaining an enabling environment with fairness and equal opportunity and freedom to perform and excel.

Our ambition for sustainable growth is to be materialized with the right kind of people possessing best skills and unmatched competencies coupled with unflinching commitment.

Our ambition for sustainable growth is to be materialized with right kind people possessing best skills and unmatched competencies coupled with unflinching commitment.

**“When ordinary people rise above the expectations and seize the opportunity those milestones truly are reached.”**

## **HEALTH, SAFETY & ENVIRONMENT**

By the Grace of Almighty Allah and continued efforts of employees, we have reached a milestone of achieving 4 MILLION SAFE MAN HOURS, without any LTI which has now become a stepping stone to grow even stronger and safer. If God wills, with top management commitment and with continued efforts of all the employees, within no time we would be able to double and triple the safe man hours and it's possible only.

Special focus is placed at Berger on protection of the environment as well as health and safety of employees, customers and communities where it operates.

The company utilizes all available resources to pursue its EHS objectives by striving to attain economic prosperity and ecological balance.

Berger manufacturing facility conforms to the international and national environmental standards where the company is manufacturing environmental friendly products to minimize the potential effect on the people and the environment.

A clean and pollution-free environment is ensured at the company's manufacturing facilities through a Solvent Recovery Plant that recycles used solvent, a Dust/Vapor extraction system and a Xylene recovery system.

Safety training programs are organized on a regular basis for all personnel, factory workers and vendors to ensure safety of the work environment. Strict safety regulations for PPE's (Personal Protection Equipment) and work procedures are enforced at every step.

In addition, safety officers conduct regular Safety Audits that identify and rectify any non-compliance and enforce proper maintenance of safety procedures with active cooperation of all employees.

## QUALITY IN DIVERSITY

## DECORATIVE PAINTS

Berger Decorative Paints caters to interior, exterior wall surfaces & wood surfaces of residential, offices, factories and commercial buildings with diverse range of colors in all product categories.

Continuous endeavors are made to achieve and maintain the high product standards that Berger is renowned for. At the same time, innovative products that meet the needs of a demanding market are also launched on a regular basis. Berger's decorative product portfolio consists of flagship products like, Silk Emulsion, Elegance Matt Emulsion, VIP Super Gloss Enamel, VIP Matt Emulsion MaxPro, All Rounder Matt Enamel, Weathercoat Glow 365, Weathercoat, WeatherPro and SPD Semi Plastic Emulsion.

Berger's Decorative business has achieved remarkable results in all product segments as it strives to keep in touch with new trends and aligns its product range accordingly. This is complemented by pioneering new marketing initiatives and strong focus on customer care.

Berger's decorative business also offers a wide range of colors through its tinting machines. These machines have been set up in different metro cities under the product name of Color Bank.

## AUTOMOTIVE PAINTS

The Automotive Paints business is a quintessential division of the organization. It offers a wide variety of products to cater the complete needs of the Automotive Industrial Sector ranging from pre-treatment products, electro deposition to top-coat stoving and flamboyant finishes to stoving lacquers & varnishes.

In order to serve the Japanese car manufacturing segment Berger has had a long standing Technical collaboration with the prestigious paint company of Japan whereby Berger uses Japanese technology to manufacture special Auto paints to supply to customers like Toyota. Besides the car segment Berger also has a considerable share in the Tractor & Truck manufacturing segment – to name a few Foton JW and Regal Automobiles are some of the main customers.

The Auto business enjoys a significant market share in the two & three wheeler industry as well by supplying paint to leading Japanese and Chinese Motorcycle & Rickshaw manufacturers along with the local bicycle industry.

Berger is proud to be associated with the Automotive Industry of Pakistan and is committed to provide the same high level of services in the years to come.

## POWDER COATINGS

Powder Coating is a unique segment of the paint business catering to the industrial manufacturing sector of the country. It is an advanced and revolutionary method of applying a decorative or protective coating that can be used by both Industrial and Retail Consumers. The powder used for the process is a mixture of finely ground particles of pigment and resin, which is sprayed on a surface to be coated. The charged powder particles adhere to the electrically grounded surface which are then heated and fused onto a smooth surface. The coated surface is then reheated in a curing oven and the result is a uniform, high-quality, attractive smooth finish.

Powder Coating is mainly used for application on the metal parts of domestic appliances like air-conditioners, refrigerators, microwave ovens, water geysers, furniture, etc. and automotive parts like radiators, hubcaps, filters, door handles, engine parts etc and also on aluminum profiles e.g. doors, windows, light poles, guard rails, light fixtures, antennas etc.

Berger offers a wide variety of shades in Bercoat its flagship powder coating brand. These shades are available in both Pure Polyester and Epoxy Polyester based systems. Customers can also get customized shades developed if need be. These finishes vary from glossy to matt, texture, antique and are all available to our customers as per their requirement.

## GENERAL INDUSTRIAL FINISHES

The General Industry Paints Business caters mainly to the industrial manufacturing sector of the nation. Berger supplies industrial finishes to leading makers of domestic electric & non-electric appliances, auto spare-parts vendors, steel & metal product manufacturers, heavy industrial machine & transformer manufacturers, metal furniture etc.

Boasting a wide range of industrial finishes Berger enjoys a significant market share in this segment of the paint industry. Berger has a complete industrial paint system developed for its extensive customer network spread all over the country. Finishes ranging from undercoats/primers to air drying enamels & varnishes, high quality heat resistant stoving finishes & varnishes, roller coating paints & lacquers and epoxy based finishes are all available. Each system has its unique characteristics designed to protect & safeguard products from all types of internal & external environmental conditions.

Conforming to International ISO Quality standards Berger over years has established itself as a major manufacturer of Industrial Finishes and is proud to be associated with names like Pak Fans, GFC Fans, SSGC and Atlas Autos.

Committed to excellence Berger always has and will continue to provide its customers with industrial finishes that are considered value for money and reliable.

## PROTECTIVE COATINGS

The PROTECTON Division of Berger makes heavy duty Protective Coatings and Anti-Corrosive Paints for specialized structures such as barrages, dams, industrial structures, pipelines, boilers, which are exposed to hostile environmental elements.

Protective Coatings serve a dual purpose of protecting surfaces from chemical reactions as well as improving visual appeal. These protective paints conform to international standards of quality and are designed to resist the severity of extreme environmental as well as corrosive effects of atmosphere, and other decaying agents.

They have excellent resisting properties against chemicals, marine environment, oil spillage and fresh and saltwater. These coatings can be applied to concrete, cement render, asbestos sheeting, steel/concrete pipelines, harbors, oil refineries, dams, barrages, chemical plants, battery rooms etc. and shore installations with good durability.

## VEHICLE REFINISHES

Berger also offers technical expertise in the Vehicle Refinish business that offer touch-up paints precisely matched with the original color of vehicles. This is achieved through different refinish systems designed to enable application for high gloss, durable, quick drying and accurate color matching finishes without giving heat treatment.

VITON car paint is one of the most popular market brand that was primarily introduced by Berger with Nitrocellulose base. It is based on international trends and offers a complete painting solution comprising of putty, primer/surfacer, lacquer and thinners.

In 2011, Berger acquired the distribution rights of DuPont Performance Coatings, now Axalta Coating Systems, for Pakistan. DuPont, now Cromax is the leading market brand of premium market segment with a complete range of 2-K Finishes such as binders, tinters, primers, top coats, clear coats and hardeners along with all types of thinners. The product range is made available at leading 3S dealerships, workshops and retail markets.

In 2017, Berger also acquired distribution rights of another brand from Axalta Coatings by the name of Duxone for Pakistan. Duxone is a brand for the economical tier of the Pakistani VR market. Duxone is a well reputed brand with a complete range of tinters, binders, primers, top coats, clear coats, hardeners and thinners.

## ROAD SAFETY

The motto of Berger Road Safety business is "Leading the Way to a Safe Journey".

Berger Pioneered the concept of single source manufacturing and application of road marking products in Pakistan. The advance Cataphos hot-melt Thermoplastic (TP) paint is manufactured in Pakistan as per BS 3262 specifications. A full range of other road marking products, including Chlorinated Rubber (CR) paint and Water Based (WB) paint, are also manufactured to match various application standards.

In addition to road marking paints, Berger Road Safety offers a complete range of other road safety products such as traffic signs, cat eyes/studs, guardrails, delineators and barriers etc. that meet high quality standards.

All Application services are provided through our trained application teams that are supervised by qualified field supervisors.

## GOVT. & MARINE

Berger stands tall amongst esteemed suppliers to the Government and its subordinate bodies, Armed Forces, Aviation sector, Utility corporations, Ports and Shipping, Research and Development Organizations, Educational Institutions and Health sector. It provides a vast variety of products and services ranging from the architectural coatings to highly specialized products.

As Pakistan is endowed with a long coastal belt, it needs reliable protection for its sea-bound crafts as well as off-shore and on-shore installations. Berger's Government & Marine business meets this need with a wide range of products comprising specialized coatings for ships, air craft's, fuel storage stands, warehouses, arms and ammunition depots, etc.

## CONSTRUCTION CHEMICALS

Berger is active in most facets of the construction industry and operates sales, warehousing and manufacturing facilities all over the country, providing local markets with prompt and informed customer service.

BERGER has established a nationwide reputation for innovative construction technology based on extensive research and development together with experienced practical advice. We offer a broad range of high-quality, intelligent and tailor-made products and systems to meet customer's needs, improving the quality, safety, efficiency, economy, design and durability of construction. The product range of BERGER comprises products for almost every conceivable high performance chemical requirement of the building.

The company has earned wide acclaim for its high performance Epoxy Floorings and Chemical Waterproofing products. BERGER products are manufactured under stringent quality control using ingredients sourced indigenously as well as imported.

The array of products include Concrete Admixtures, Waterproofing treatments, Epoxy Flooring, Sealants and Grouts.

## ADHESIVES

The flagship brand of Berger's Adhesives business is Berlith and NULith. It is white glue with a base of plastic resin combined with high concentration, bonding strength and excellent application qualities. Used both, in the wood furniture and sports goods industries, the high adhesion strength of Berlith and NULith, is ideal for gluing hardboard, chipboard, softwood, ply, Formica, etc.

Because of its strong plastic resin base, Berlith and NULith are the best choice for use in kitchen cabinets and counters. They also serve as a suitable pasting glue for labels on plastic, glass, cartons, etc.

# CHAIRMAN'S REVIEW

It is my pleasure to submit this review report to the stakeholders of Berger Paints Pakistan Limited (the "Company") on the overall performance of the Board of Directors and its effectiveness in achieving the Company's set objectives. To build an effective governance model, risk management and control environment, the Board has implemented several policies through the Company's management.

The Board of Directors has its three sub-committees:

1. Audit Committee
2. Human Resources Committee
3. Committee for Business Strategies

These committees assisted the Board of Directors effectively for the performance of its required duties. These sub-committees met regularly and reported to the Board as set out in the Code of Corporate Governance 2019. The Board met several times during the year. The Board Committees greatly facilitated the overall working of the Board.

An annual evaluation of and by the Board was conducted once a year, in accordance with the code of Corporate Governance to ensure that the overall performance of the Board was in line with the developed comprehensive criteria. During the year under review, the Board played an effective role in providing guidance to the Company, to achieve sustainable operational and financial results.

The Board of Directors frequently interact with the management team, visit the factory premises, meeting both the internal auditors and external auditors and so to take timely decisions at its Board and sub-committee meetings

Management is responsible for executing day-to-day business activities in line with objectives set by the Board. The Board endeavors to put in place business continuity plans to deal with the present challenging environment, so to ensure safety and well-being of employees and other stakeholders. The Board of Directors will continue to play its role in setting the direction of the Company, supporting execution of plans while adhering to the principles of good corporate governance.

On behalf of the Board, I would like to acknowledge the contribution of management, all our employees, customers, our vendors and our valued shareholders for their trust, continued support and commitment to the Company along with our other stakeholders.

# DIRECTORS' REPORT

For the year ended 30 June 2022

The Directors of your Company are pleased to present their report along with the audited financial statements of the Company for the year ended June 30, 2022.

## ECONOMY OF PAKISTAN

Though Pakistan survived from the COVID-19 crisis, it faced the daunting tasks in FY2022 such as controlling fiscal deficit, curtailing current account deficit, managing pressure on exchange rate along with achieving a sustainable economic revival. Rupee devaluation: this single factor has left businesses in a challenging situation where importers are facing significant difficulties in procurement of raw material through imports.

In early 2022, the Russian-Ukraine conflict elevated global commodity prices which also fueled domestic market inflation. Threats from high inflation, rising interest rates, lingering supply constraints, and mounting uncertainties have badly affected the financial performance of most of the companies. The ongoing Political instability in the country has further affected the situation.

## BUSINESS PERFORMANCE

Given the situation mentioned above, your company managed to achieve net Sales for the year at Rs. 7,073 million as compared to Rs. 5,602 million in last year, up by 26% mainly due to increase in sales volumes by 8% which is reflected in improved gross profit as well.

Selling, Marketing and Administrative expenses were Rs. 869 million compared to Rs. 711 million of the previous year, after inflationary impact.

Financial cost increased by Rs.46 million mainly due to drastic increase in State bank policy rate as compared to previous year.

## FINANCIAL PERFORMANCE

The financial position is summarized as follows:

Rupees in thousand	30 June 2022	30 June 2021
Operating Profit	304,335	293,224
Other income	106,160	91,580
	410,495	384,804
Finance cost	(163,477)	(117,758)
Profit before taxation	247,018	267,046
Taxation	(45,132)	(71,825)
Profit after taxation	201,886	195,221

## Future Outlook

In the Year to come, stability in value of Rupee against US dollar and international commodity prices will have an important bearing on the inflation trajectory. The resumption of the IMF program has provided a solid base for economic take off should the expected private and official foreign exchange inflow keep Pakistan's position stable. The effects of the political instability, along with the massive natural flood calamity in recent days has further aggravated the in-country situation and could affect a broad-based recovery of the economy into the near future.

Although macroeconomic environment could improve gradually, cost reduction, cash flow generation and market execution remain as key operating priorities. With motivated sales team, the Company is well positioned to compete with unorganized sector, keeping market share intact and keep adding value to its stakeholder's wealth.

### **HEALTH, SAFETY & ENVIORNMENT (HSE)**

Safety and well-being of workers has been utmost priority of BERGER PAINTS and like all the world class companies we believe to have excellent safety record. To provide a safer and healthier environment for its workers is our moral, ethical and legal responsibility.

The Company demonstrated its firm commitment to HSE with 6.1 million safe hours so far. To give a clean and ecofriendly environment, the Company has installed one megawatt solar power project for its consumption which has green impact on community all around.

We have recently installed latest sprinkler systems in all required areas replacing old ones. All HSE related equipment are frequently tested and verified throughout the year. In order to improve the emergency evacuation and response of firefighting team members at plant regular firefighting drills were conducted through continuous training of the team.

These developments are a clear demonstration of the Company's resolve to maintain health and safety as a core priority.

### **ENTERPRISE RISK MANAGEMENT -ERM**

The Board of Directors has approved Company's risk management policy. The Board of Directors also provides guidelines on strategic matters and organizational objectives. The business units are responsible for managing risks at operational level. However, the company – level risk management is the responsibility of the risk management function (RMF).

RMF reports its results/ findings/ observations to the Board Audit Committee. The committee regularly reviews the business risk profiles, risk management policy, risk assessment procedures, related counter strategies and advise on future actions. The Board of Directors authorized the audit committee to supervise overall risk management process of the company.

### **BOARD OF DIRECTORS**

During the year, four meetings of the Board of Directors were held and attendance was as follows:

Mr. Maqbool H. H. Rahimtoola'	4
Dr. Mahmood Ahmad	4
Mr. Tariq Ikram	4
Mr. Shahzad M. Hussain	4
Mr. Zafar A. Osmani	4
Mr. Mohammad Saeed	4
Ms. Zareen Aziz	3
Mr. Zahid Majeed (Alternate to Mr. Ilyas Sharif)	4

Leave of absence was granted to the Directors who were unable to attend meetings.

All relevant other information has already been disclosed in Statement of Compliance with Listed Companies (Code of Corporate Governance) Regulations, 2019 and note 40 to the financial statements.

## ڈائریکٹرز رپورٹ

برائے سال ختمہ 30 جون 2022ء

آپ کی کمپنی کے ڈائریکٹرز 30 جون 2022ء کو اختتام پذیر سال کے لئے پڑتال شدہ مالیاتی اسٹیٹمنٹس کے ہمراہ اپنی رپورٹ ازراہ مسرت پیش کرتے ہیں۔

### پاکستانی معیشت

اگرچہ پاکستان کرونا وائرس بحران سے نکل چکا ہے لیکن مالیاتی سال 2022ء کے دوران کمپنی کو کرنٹ اکاؤنٹ خسارہ کٹرول کرنے، شرح مبادلہ پر دباؤ کو منیج کرنے اور پائیدار معاشی بحالی جیسے مشکل چیلنجز کا سامنا کرنا پڑا۔ روپے کی قدر میں کمی: اس واحد محرک نے کاروباری سرگرمیوں کو مشکل حالات میں ڈال دیا ہے۔ جہاں درآمد کنندگان کو خام مال حاصل کرنے کے لئے بھی مشکلات کا سامنا کرنا پڑتا ہے۔

سال 2022ء کے آغاز میں روس-یوکرین تنازعہ کے باعث عالمی سطح پر اشیاء کی قیمت میں اضافہ ہوا جس کی وجہ سے ملکی سطح پر بھی افراط زر کو ہوا ملی۔ بلند افراط زر کی شرح اور شرح سود، سپلائی میں تعطل اور بڑھتی ہوئی غیر یقینی کی صورت حال نے اکثر کمپنیوں کی مالیاتی کارکردگی پر برے اثرات مرتب کئے ہیں۔ ملک میں جاری سیاسی عدم استحکام نے حالات میں مزید بگاڑ پیدا کر دیا ہے۔

### کاروباری کارکردگی

مذکورہ بالا حالات میں، زیر جائزہ سال میں آپ کی کمپنی گذشتہ برس میں 5,602 ملین روپے کے مقابلے میں 26 فی صد اضافے کے ساتھ 7,073 ملین روپے کی خالص سیلز حاصل کرنے میں کامیاب ہوئی۔ سیلز کے حجم میں 8 فی صد اضافہ، بہتر کل منافع کی بھی عکاسی کرتا ہے۔

سیلنگ، مارکیٹنگ اور ایڈمنسٹریٹو اخراجات افراط زر کے دباؤ کے باعث گذشتہ برس میں 711 ملین روپے کے مقابلے میں 869 ملین روپے رہے۔

اسٹیٹ بینک پالیسی ریٹ میں ہوش ربا اضافے کے باعث مالیاتی لاگت میں گذشتہ برس کے مقابلے میں 46 ملین روپے اضافہ ہوا۔

### مالیاتی کارکردگی

مالیاتی حالت کا خلاصہ حسب ذیل ہے:

2021، جون 30	2022، جون 30	روپے ہزاروں میں
293,224	304,335	آپریٹنگ منافع
91,580	106,160	دیگر آمدنی
384,804	410,495	قرضوں پر لاگت
(117,758)	(163,477)	نفع جمعہ ٹیکسیشن
267,046	247,018	ٹیکسیشن
(71,825)	(45,132)	نفع علاوہ ٹیکسیشن
195,221	201,886	

### مستقبل کا منظر نامہ

آئندہ برس، امریکی ڈالر کے مقابلے میں روپے کی قدر اور بین الاقوامی سطح پر ایشیاء کی قیمتوں میں استحکام افراط زر کی شرح کو کم کرنے میں اہم کردار ادا گا۔ IMF پروگرام کی بحالی نے معیشت کو اوپر اٹھانے میں ٹھوس بنیاد فراہم کی اور توقع کی جاتی ہے کہ کئی دہائیوں کی شرح پر غیر ملکی رقوم کی آمد پاکستان کی حالت کو مزید مستحکم کرے گی۔ سیاسی بے چینی کے اثرات اور حالیہ دنوں میں سیلاب جیسی قدرتی آفت نے ملک کی مالیاتی حالت کو مزید بگاڑ دیا ہے۔ یہ بگاڑ مستقبل قریب میں معیشت کی بحالی میں اثرات مرتب کرے گا۔

کلی معاشی اشاریے بتدریج بہتر ہو سکیں گے جب کہ لاگت میں کمی، کیش فلوا اور مارکیٹ کو متحرک کرنا اہم آپریٹنگ ترجیحات ہوں گی۔ پرجوش سیلز ٹیم کی مدد سے کمپنی غیر منظم شعبے سے مقابلہ کرنے کے قابل ہو جائے گی اور مارکیٹ میں اپنے قدم بھرا کر اپنے سٹیک ہولڈرز کے منافع میں اضافہ کرے گی۔

### صحت، تحفظ اور ماحولیات (HSE)

ورکرز کی حفاظت اور خوش حالی برہنہ بنائش کی اولین ترجیح رہی ہے اور عالمی معیار کی دیگر کمپنیوں کی طرح ہم بہترین سہمیٹ ریکارڈ حاصل کرنے کے لئے کوشاں ہیں۔ اپنے ورکرز کو محفوظ اور صحت بخش ماحول فراہم کرنا ہماری اخلاقی و قانونی ذمہ داری ہے۔

### شناختی کارڈ اور NTN حقیقت کی (لازمی) کی نقل جمع کرنا

SECP ہدایات کی پیروی میں ایسے شیئر ہولڈرز جن کے شناختی کارڈ/SNIC یا (کاروباری ادارہ کی صورت میں) NTN شیئر رجسٹر اراکار کے پاس موجود نہیں ان کو منافع منقسمہ کی ادائیگی روک دی جائے گی۔ لہذا شیئر ہولڈرز کو اپنے کارڈ شناختی کارڈ/SNIC کی نقل کمپنی کے شیئر رجسٹر اراکارپ لنک پرائیویٹ لمیٹڈ ونک آر کیڈ، K-1، کراچی بلاک K، ماڈل ٹاؤن، لاہور، پنجاب 54000 کو جمع کرانے کی درخواست کی جاتی ہے (اگر پہلے مہیا نہیں کیا گیا ہے)۔

### منافع منقسمہ پر ود ہولڈنگ ٹیکس

حکومت پاکستان نے فائننس ایکٹ 2019ء کے ذریعے آگم ٹیکس آرڈیننس 2001ء میں چند ترامیم کی ہیں جس کے تحت کمپنیز کے ادا شدہ منافع منقسمہ کی رقم پر ود ہولڈنگ ٹیکس کی کٹوتی کے لئے مختلف ریٹ بیان کئے گئے ہیں۔ یہ شرح ٹیکس حسب ذیل ہے:

15%	برائے فائلر آگم ٹیکس ریٹرز	(a)
30%	برائے نان فائلر آگم ٹیکس ریٹرز	(b)

منافع منقسمہ کی وصولی کے وقت فائلر شیئر ہولڈرز کو FBR کی ویب سائٹ پر فعال ٹیکس دہندگان کی فہرست (ATL) میں اپنے نام کا اندراج یقینی بنانا ہوگا بصورت دیگر انہیں نان فائلر شمار کیا جائے گا اور ان کے نقد منافع منقسمہ پر 15% کی بجائے 30% فی صد کی شرح سے ٹیکس عائد ہوگا۔

### جو انٹ اکاؤنٹ ہولڈرز کی صورت میں منافع منقسمہ پر ود ہولڈنگ ٹیکس

کمپنی کے منافع منقسمہ پر ود ہولڈنگ ٹیکس کی کٹوتی کے لئے جو انٹ اکاؤنٹ ہولڈرز کے شیئر ہولڈنگ تناسب کے تعین (جب کہ پرنسپل شیئر ہولڈر نے شیئر ہولڈنگ کا تعین نہ کیا

# INDEPENDENT AUDITOR'S REVIEW REPORT

## TO THE MEMBERS OF BERGER PAINTS PAKISTAN LIMITED

### REVIEW REPORT ON THE STATEMENT OF COMPLIANCE CONTAINED IN LISTED COMPANIES (CODE OF CORPORATE GOVERNANCE) REGULATIONS, 2019

We have reviewed the enclosed Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) prepared by the Board of Directors of Berger Paints Pakistan Limited (the Company) for the year ended June 30, 2022 in accordance with the requirements of regulation 36 of the Regulations.

The responsibility for compliance with the Regulations is that of the Board of Directors of the Company. Our responsibility is to review whether the Statement of Compliance reflects the status of the Company's compliance with the provisions of the Regulations and report if it does not and to highlight any non-compliance with the requirements of the Regulations. A review is limited primarily to inquiries of the Company's personnel and review of various documents prepared by the Company to comply with the Regulations.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Company's corporate governance procedures and risks.

The Regulations require the Company to place before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval, its related party transactions. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommendation of the Audit Committee.

Based on our review, nothing has come to our attention which causes us to believe that the Statement of Compliance does not appropriately reflect the Company's compliance, in all material respects, with the requirements contained in the Regulations as applicable to the Company for the year ended June 30, 2022.

# Berger Paints Pakistan Limited Unconsolidated Financial Statements

for the year ended June 30, 2022

# INDEPENDENT AUDITOR'S REPORT

## To the members of Berger Paints Pakistan Limited Report on the Audit of the Financial Statements

### Opinion

We have audited the annexed financial statements of Berger Paints Pakistan Limited (the Company), which comprise the statement of financial position as at June 30, 2022, and the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity, the statement of cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information, and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the statement of financial position, statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan and give the information required by the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Company's affairs as at June 30, 2022 and of the profit, the comprehensive income, the changes in equity and its cash flows for the year then ended.

### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the Key audit matter:

Sr. No.	Key audit matter	How the matters were addressed in our audit
1.	<p><b>Revenue recognition</b> (Refer note 30 to the annexed financial statements)</p> <p>The Company is principally engaged in the production and sale of paints, varnishes and other related items in the local and export markets.</p> <p>Revenue from sale of goods is recognised when the performance obligation is satisfied by transferring control of promised goods to the customers.</p>	<p>Our audit procedures in relation to the matter, amongst others, included the following:</p> <ul style="list-style-type: none"> <li>understood and evaluated management controls over revenue and checked their validation;</li> <li>performed verification of sales with underlying documentation including dispatch documents and sales invoices;</li> <li>tested on a sample basis, specific revenue transactions recorded before and after the reporting date with underlying documentation to assess whether revenue has been recognized in the correct period;</li> </ul>

Sr. No.	Key audit matter	How the matters were addressed in our audit
	<p>We consider revenue recognition as a key audit matter due to revenue being one of the key performance indicators of the Company. Revenue for the year has increased significantly as compared to the last year. In addition, revenue was also considered as an area of an inherent risk of material misstatement and significant audit risk as part of the audit process.</p>	<ul style="list-style-type: none"> <li>• verified that sales prices are approved by the appropriate authority;</li> <li>• tested on a sample basis, specific discounts as per Company's policy;</li> <li>• performed analytical procedures to analyse variation in the price and quantity sold during the year;</li> <li>• tested journal entries relating to revenue recognised during the year based on identified risk criteria; and</li> <li>• assessed the adequacy of disclosures made in the financial statements related to revenue.</li> </ul>

### **Information Other than the Separate and Consolidated Financial Statements and Auditor's Reports Thereon**

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the separate and consolidated financial statements and our auditor's reports thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

### **Responsibilities of Management and Board of Directors for the Financial Statements**

Management is responsible for the preparation and fair presentation of the financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and the requirements of Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Board of directors are responsible for overseeing the Company's financial reporting process.

### **Auditor's Responsibilities for the Audit of the Financial Statements**

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the board of directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the board of directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the board of directors, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Report on Other Legal and Regulatory Requirements**

Based on our audit, we further report that in our opinion:

- a) proper books of account have been kept by the Company as required by the Companies Act, 2017 (XIX of 2017);
- b) the statement of financial position, the statement of profit or loss, the statement of comprehensive income, the statement of changes in equity and the statement of cash flows together with the notes thereon have been drawn up in conformity with the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
- c) investments made, expenditure incurred and guarantees extended during the year were for the purpose of the Company's business; and
- d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Company and deposited in the Central Zakat Fund established under section 7 of that Ordinance.

**Other Matter**

The financial statements of the Company for the year ended June 30, 2021 were audited by another firm of Chartered Accountants who vide their report dated October 7, 2021 expressed an unmodified opinion thereon.

The engagement partner on the audit resulting in this independent auditor's report is Hammad Ali Ahmad.

## 2 Basis of preparation and statement of compliance

### 2.1 Separate financial statements

These financial statements are the separate financial statements of the Company in which investments in subsidiary and associates are accounted for on the basis of direct cost of investment less identified impairment, if any rather than on the basis of reported results and net assets of the investees. Consolidated financial statements of the Company are prepared separately.

The Company has following investments:

Company name	Country of incorporation	Percentages of shareholdin	Nature of business
<b><u>Subsidiaries</u></b>			
Berger DPI (Private) Limited	Pakistan	51.00%	Execution of contracts relating to application of road marking paints and installation of road safety equipment
<b><u>Associate</u></b>			
3S Pharmaceuticals (Private) Limited	Pakistan	49.00%	Manufacturing of medicines

### 2.2 Statement of compliance

These financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act 2017;

- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and
- Provision of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS and IFAS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

### 2.3 Basis of measurement

These financial statements have been prepared under the historical cost convention except for:

- measurement of certain financial instruments at fair value;
- the measurement of certain items of property, plant and equipment at revalued amounts;
- recognition of employee retirement benefits at present value; and
- certain foreign currency translation adjustments.

### 2.4 Functional and presentation currency

These financial statements are presented in Pakistan Rupees (Rs.), which is the Company's functional and presentation currency.

## 3 Changes in accounting standards, interpretations and pronouncements

### a) Interpretations and amendments to published approved accounting standards that became effective during the year but are not relevant

There are certain amendments and interpretations to the accounting and reporting standards which are mandatory for the Company's annual accounting period which began on July 1, 2021. However, these do not have any significant impact on the Company's financial statements.

### b) Interpretations and amendments to published approved accounting standards that are not yet effective

There are certain amendments and interpretations to the accounting and reporting standards which are mandatory for the Company's annual accounting period which began on July 1, 2021. However, these do not have any significant impact on the Company's financial statements.

<b>Standard or interpretation</b>	<b>Effective Date (Annual periods beginning on or after)</b>
Property, Plant and Equipment: Proceeds before intended use – Amendments to IAS 16	January 01, 2022
Cost of Fulfilling an Onerous Contracts – Amendments to IAS 37	January 01, 2022
Updating a Reference to the Conceptual Framework – Amendments to IFRS 3	January 01, 2022
Classification of Liabilities as Current or Non-current – Amendments to IAS 1	January 01, 2024
Amended by Definition of Accounting Estimates – Amendments to IAS 8	January 01, 2023
Deferred tax related to assets and liabilities arising from a single transaction – Amendment to IAS 12	January 01, 2023

The management is in the process of assessing the impact of changes laid down by these standards on its financial statements.

In addition to the above standards and amendments, improvements to various accounting standards have also been issued by the IASB in previous years. Such improvements are generally effective for accounting periods beginning on or after January 01, 2022 and January 01, 2023 respectively. The Company expects that such improvements to the standards will not have any significant impact on the Company's financial statements in the period of initial application.

#### 4 Significant accounting policies

The accounting policies adopted for the preparation of the financial statements are set out below. The accounting policies have been consistently applied to all the years presented.

##### 4.1 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any identified impairment loss, except for freehold and leasehold land, buildings thereon and plant and machinery, which are stated at revalued amounts less any subsequent accumulated depreciation and subsequent accumulated impairment losses, if any. Cost comprises purchase price, non refundable duties and taxes after deducting trade discounts and rebates, and includes other costs directly attributable to the acquisition or construction.

Increases in the carrying amount arising on revaluation of property, plant and equipment are credited to the revaluation surplus on property, plant and equipment account except for a reversal of deficit already charged to statement of profit or loss. A revaluation deficit is recognized in profit or loss, except for a deficit directly offsetting a previous surplus, in which case the deficit is taken to revaluation surplus on property, plant and equipment. The revaluation surplus on property, plant and equipment to the extent of the annual incremental depreciation based on the revalued carrying amount of the assets is transferred annually directly to accumulated profit net of related deferred tax. Any accumulated depreciation at the revaluation date is eliminated against the gross carrying amount of the assets and the net amount is adjusted to the revalued amount of the assets.

Upon disposal, any revaluation reserve relating to the particular assets being sold is transferred to accumulated profits. All transfers to / from revaluation surplus on property, plant and equipment account are net of applicable deferred tax.

Depreciation on all property, plant and equipment except freehold land is charged to profit or loss using the straight line method whereby the cost less residual value of an asset is written off over its estimated useful life. Residual values are reviewed at each reporting date and adjusted if the impact on depreciation is significant.

Useful lives are regularly reviewed by the management based on expected usage of assets, expected physical wear and tear, technical and commercial obsolescence, legal and similar limits on the use of the assets and other similar factors.

Depreciation on additions to property, plant and equipment is charged from the month in which the asset is put to use while depreciation on assets disposed off is charged up to the month preceding the disposal.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses on disposal of property, plant and equipment are represented by the difference between the sale proceeds and the carrying amount of the asset and is recognized as an income or expense in statement of profit or loss.

Maintenance and normal repairs are charged to statement of profit or loss as and when incurred. Major renewals and improvements are capitalized.

##### Right-of-use asset and Lease liability

At inception of a lease contract, the Company assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

The Company applies a practical expedient and, does not recognise right-of-use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low-value assets, if any. The lease payments associated with these leases is recognised as an expense on a straight line basis over the lease term.

For lease contracts other than the aforementioned, the lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Company's incremental borrowing rate.

Lease payments include fixed payments, variable lease payment that are based on an index or a rate and amounts expected to be payable by the lessee under residual value guarantees, the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option, less any lease incentives receivable. The extension and termination options are incorporated in determination of lease term only when the Company is reasonably certain to exercise these options.

The lease liability is subsequently measured at amortised cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in fixed lease payments or an index or rate, change in the Company's estimate of the amount expected to be payable under a residual value guarantee, or if the Company changes its assessment of whether it will exercise a purchase, extension or termination option. The corresponding adjustment is made to the carrying amount of the right-to-use asset, or is recorded in the statement of profit and loss account if the carrying amount of right-to-use asset has been reduced to zero.

The right-of-use asset is initially measured based on the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentive received. The right-of-use asset is depreciated on a straight line method over the lease term as this method most closely reflects the expected pattern of consumption of future economic benefits. The right-of-use asset is reduced by impairment losses.

### **Capital work in progress**

Capital work in progress is stated at cost less any identified impairment loss and represents expenditure incurred on property, plant and equipment during the construction and installation. Cost also includes applicable borrowing costs. Transfers are made to relevant property, plant and equipment category as and when assets are available for use as intended.

The Company assesses at each reporting date whether there is any indication that the assets may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to determine whether they are recorded in excess of their recoverable amounts. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is charged to profit or loss currently except for impairment loss on revalued assets, which is recognized directly against any revaluation surplus for the related asset to the extent that the impairment loss does not exceed the amount held in the revaluation surplus for the same asset.

## **4.2 Intangible assets**

Intangibles are recognized when it is probable that the expected future economic benefits will flow to the entity and the cost of the asset can be measured reliably. Intangibles are measured initially at cost. The cost of intangible comprises of its purchase price including non-refundable purchase taxes after deducting trade discounts and rebates and includes other costs directly attributable to acquisition. Cost incurred after the asset is in the condition necessary for it to operate in the manner intended by management are recognised in statement of profit or loss.

### **4.2.1 Computer software**

Expenditure incurred to acquire computer software are capitalized as intangible assets and stated at cost less accumulated amortization and any identified impairment loss.

Amortization on assets with finite useful life is charged to statement of profit or loss on straight line basis so as to write off the cost of an asset over its estimated useful life. Amortization on addition is charged from the month in which the asset is acquired or capitalized while no amortization is charged for the month in which the asset is disposed off. Amortization is being charged at annual rates as specified in note 7.

#### 4.2.2 Goodwill acquired in business combinations

The purchase method of accounting is used to account for the acquisition of businesses by the Company. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed, if any, at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities, if any, assumed in a business combination are measured initially at their fair values at the acquisition date. The excess of the cost of acquisition over the fair value of the identifiable net assets acquired is recognized as goodwill. Subsequent to initial recognition, goodwill is measured at cost less accumulated impairment loss, if any.

#### 4.3 Investments in equity instruments of subsidiaries and associates

Investments in subsidiaries and associates where the Company has significant influence are measured at cost less impairment, if any, in the Company's separate financial statements.

The Company is required to issue consolidated financial statements along with its separate financial statements, in accordance with the requirements of IAS-27 'Separate Financial Statements'. Investments in associates, in the consolidated financial statements, are accounted for using equity method in accordance with IAS-28 'Investment in Associates'.

#### 4.4 Stores, spare parts and loose tools

These are valued at moving weighted average cost less any identified impairment except for items in transit, which are valued at invoice price and related expenses incurred. Items considered obsolete are carried at nil value. General stores and spare parts are charged to statement of profit or loss. The Company reviews the carrying amount of stores on a regular basis and provision is made for obsolescence if there is any change in usage pattern and physical form of related stores.

#### 4.5 Stock in trade

Stock in trade is valued at lower of cost and Net Realizable Value (NRV).

Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition and valuation has been determined as follows:

Raw materials, packing materials and semi-processed goods	Moving weighted average cost
Finished goods	Moving weighted average manufacturing cost
Finished goods purchased for resale	Moving weighted average cost
Stock in transit	Invoice value plus other charges paid thereon up to the reporting date

NRV signifies the estimated selling price in the ordinary course of business less estimated costs of completion and selling expenses.

Provision for obsolete and slow moving stock in trade is based on management's estimate and is recognised in financial statements whenever necessary.

#### 4.6 Trade debts and other receivables

These are classified at amortized cost and are initially recognised when they are originated and measured at fair value of consideration receivable. An impairment allowance i.e. expected credit loss is calculated based on actual credit loss experience over the past years. The Company applies a simplified approach in calculating Expected Credit Loss (ECL). The Company has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. The Company recognises a loss allowance based on lifetime ECLs at each reporting date. The impairment allowance is recognized in the statement of profit or loss. These assets are written off when there is no reasonable expectation of recovery.

#### 4.7 Cash and cash equivalents

Cash and cash equivalents comprise of short-term running finance, cash and balances and investments with maturities of three months or less from acquisition date that are subject to insignificant risk of changes in fair value. Bank overdrafts that are repayable on demand and form an integral part of the Company's cash management are included as a component of cash and cash equivalents for the purpose of statement of cash flows.

## 4.8 Financial instruments

### 4.8.1 Classification and measurement of financial assets and financial liabilities

Under IFRS 9, on initial recognition, the Company classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value either through other comprehensive income (FVOCI), or through profit or loss (FVTPL); and
- Those to be measured at amortized cost.

The classification depends upon entity's business model for managing the financial assets and the contractual terms of the cash flows.

The following assessments are made on the basis of the facts and circumstances that exist at the date of initial application:

- The determination of business model within which a financial asset is held; and
- The designation of certain financial assets with respect to subsequent measurement either through profit or loss or other comprehensive income.

A financial asset is measured at amortised cost if it meets both of the following conditions:

- it is held within business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Company may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Company may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

The following accounting policies apply to the subsequent measurement of financial assets:

#### i) Financial assets at FVTPL

These assets are subsequently measured at fair value. Net gains and losses, including an interest / markup or dividend income, are recognized in statement of profit or loss.

#### ii) Financial assets at amortised cost

These assets are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses, if any. Interest / markup income, foreign exchange gains, losses and impairment are recognized in statement of profit or loss.

#### iii) Debt investments at FVOCI

These assets are subsequently measured at fair value. Interest / markup income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in statement of profit or loss. Other net gains and losses are recognized in statement of comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to statement of profit or loss.

### iii) **Debt investments at FVOCI**

These assets are subsequently measured at fair value. Dividends are recognized in statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in other comprehensive income and are never reclassified to statement of profit or loss.

#### 4.8.2 **Impairment**

The Company recognizes loss allowances for ECLs on:

- financial assets measured at amortized cost;
- debt investments measured at FVOCI

An impairment loss is recognized if the carrying amount of the assets exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss. Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists.

Additional information about how the company measures allowance for impairment is detailed in note 45.1.3 of the financial statements.

#### 4.8.3 **Derecognition**

##### **Financial assets**

The Company derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Company neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Company might enter into transactions whereby it transfers assets recognized in its statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

##### **Financial liabilities**

The Company derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expired. The Company also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in profit or loss.

#### 4.8.4 **Offsetting**

Financial assets and financial liabilities are offset and the net amount presented in the statement of financial position when, and only when, the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

#### 4.9 **Impairment of non-financial assets**

Goodwill and intangible assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use. The recoverable amount of an asset or cash-generating unit is the higher of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessment of the time value of money and the risks specific to the asset. For the purpose of impairment testing, assets that cannot be tested individually are grouped together into the smallest group of assets that generates cash inflows from continuing use that are largely independent of the cash inflows of other assets or groups of assets (the "cash-generating unit, or CGU").

The Company's corporate assets generally do not generate separate cash inflows. If there is an indication that a corporate asset may be impaired, then the recoverable amount is determined for the CGU to which the corporate asset belongs. An impairment loss is recognized if the carrying amount of an asset or its CGU exceeds its estimated recoverable amount. Impairment losses are recognized in profit or loss.

Impairment loss recognized in prior periods is assessed at each reporting date for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates that are used to determine the recoverable amount. An impairment loss is reversed only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

#### **4.10 Provisions**

Provisions are recognized when, the Company has a present obligation (legal or constructive) as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations and reliable estimates of the obligations can be made. Provisions are reviewed periodically and adjusted to reflect the current best estimates.

#### **4.11 Contingent assets**

Contingent assets are possible assets those arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company and are disclosed when inflow of economic benefits is probable. Contingent assets are not recognized until their realization become virtually certain.

#### **4.12 Contingent liabilities**

A contingent liability is disclosed when:

- there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Company; or
- there is present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

#### **4.13 Revenue recognition**

Revenue represents the fair value of the consideration received or to be received from the sale of goods, net of sales tax, sales return and related discounts. Revenue is measured based on the consideration specified in a contract with customer. The Company recognises revenue when it transfers control of the goods. The customers obtain control when the goods are delivered to them and have been accepted at their premises except for exports where control is transferred at the time of dispatch. Invoices are generated at that point in time. The Company's customer arrangements contain a single performance obligation to transfer manufactured or purchased paints, varnishes and other related items.

#### **4.14 Contract liabilities**

A contract liability is the obligation of the Company to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract.

#### **4.15 Taxation**

Income tax expense comprises of current and deferred tax. It is recognised in profit or loss except to the extent that it relates to items recognised in other comprehensive income, in which case it is recognised in equity.

##### **Current tax**

Provision for current tax is based on the taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year if enacted after taking into account tax credits, rebates and exemptions, if any.

The charge for current tax also includes adjustments, where considered necessary, to provision for tax made in previous years arising from assessments framed during the year for such years. Under / over paid amount of current tax is recorded as tax refundable / payable due from / to the Government.

The Company takes into account the current income tax law and decisions taken by the taxation authorities. Instances where the Company's views differ from the views taken by the income tax department at the assessment stage and where the Company considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

#### **Deferred tax**

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for;

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Company is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.
- temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognize a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

#### **4.16 Trade and other payables**

Trade payables are obligations under normal short-term credit terms. These are measured at the undiscounted amount of cash to be paid.

#### **4.17 Employee benefits**

##### **4.17.1 Short term employee benefits**

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Company has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

##### **4.17.2 Defined benefit plan**

The Company operates the following defined benefit schemes:

- a) An approved and funded pension scheme for all executives; and
- b) An approved and funded gratuity scheme for all its permanent employees.

#### **Pension scheme**

The Company offers pension benefits to its executive staff. Monthly pension is calculated as two percent of the average basic salary of the last year multiplied with pensionable service.

#### **Gratuity scheme**

The Company offers gratuity benefits to its all of its permanent employees, and is payable to employees having service in the Company for minimum five years. The gratuity benefits provided by the Company is calculated by multiplying last drawn basic salary with number of years of service and gratuity factor.

Actuarial valuations are carried out using the 'Projected Unit Credit Method'. Contributions to the schemes are based on these valuations. Remeasurements of the defined benefit liability, which comprise actuarial gains and losses, is recognised immediately in other comprehensive income. The Company determines the interest expense on the defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of benefit payments. Interest expense and other expenses related to defined benefit plan are recognized in profit or loss. The Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

The actual return on plan assets represents the difference between the fair value of plan assets at the beginning of the year and as at the end of the year after adjustments for contributions made by the Company as reduced by benefits paid during the year.

#### **4.17.3 Defined contribution plan**

##### **Provident fund**

The Company also operates a recognized provident fund scheme for its employees. Equal monthly contributions are made, both by the Company and the employees, to the fund at the rate of ten percent of basic salary for executive and non-executive staff.

#### **4.17.4 Other long term benefits - Accumulated compensated absences**

The Company also provides for compensated absences for all eligible employees in accordance with the rules of the Company. The Company accounts for these benefits in the period in which the absences are earned. Employees are entitled to earned leaves of 21 days per annum. The unutilized leaves are accumulated subject to a maximum of 42 days. The unutilized accumulated leaves can be encashed at the time the employee leaves Company service. The accumulated leave balance in excess of 42 days of an employee is ignored while determining benefit obligations.

The Company uses the actuarial valuations carried out using the projected unit credit method for valuation of its accumulated compensated absences. Provisions are made annually to cover the obligation for accumulating compensated absences based on actuarial valuation and are charged to profit or loss. The amount recognised in the statement of financial position represents the present value of the defined benefit obligation. Actuarial gains and losses are charged to the profit or loss immediately in the year when these occur.

#### **4.17.5 Other employee benefits**

The Company employees are offered interest free long term loans for purchase of vehicles. The term of loan ranges for a period of 3-10 years. Deductions are made from salaries as per agreed repayment schedule. The loan amount is required to be repaid immediately as the employment contract ceases on termination or resignation of the employees. The loans are secured against title of vehicles. These loans have been discounted at market rate.

#### **4.18 Foreign currency transactions and translation**

Foreign currency transactions are translated into Pak Rupees which is the Company's functional and presentation currency using the exchange rates approximating those prevailing at the date of the transaction. All monetary assets and liabilities in foreign currencies are translated into Pak Rupees using the exchange rate at the statement of financial position date. Exchange gains and losses resulting from the settlement of such transactions and from the translations at the year end, exchange rates of monetary assets and liabilities denominated in foreign currencies are taken to income. Non-monetary assets and liabilities denominated in foreign currency that are measured in terms of historical cost are translated using the exchange rates as at the date of the initial transaction.

#### **4.19 Dividends and appropriations to general reserve**

Dividends and appropriations to general reserves are recognized in the financial statements in the period in which these are approved.

#### **4.20 Earnings per share (EPS)**

Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Company by weighted average number of ordinary shares outstanding during the year.

Diluted EPS is calculated by adjusting basic EPS with weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares into ordinary shares and post-tax effect of changes in profit or loss attributable to ordinary shareholders of the Company that would result from conversion of all dilutive potential ordinary shares into ordinary shares.

#### 4.21 Borrowing costs

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying asset is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognized in profit or loss as incurred.

#### 4.22 Government grants

The Company recognises benefit of a government loan at a below-market rate of interest as a government grant provided there is a reasonable assurance that the grant will be received and Company will comply with all attached conditions. The benefit of loan at below market rate of interest is measured as the difference between the initial carrying value of the loan in accordance with IFRS 9 and the proceeds received. The benefit is generally accounted for and presented as deferred grant in accordance with IAS 20 as a separate line item in statement of financial position. Subsequently, the grant is recognised in statement of profit or loss as other income, on a systematic basis over the periods in which the expenses for which the grant is intended to compensate.

### 5 Use of judgments and estimates

The preparation of these financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions and judgments are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimate is revised if the revision effects only that period, or in the period of revision and future periods if the revision affects both current and future periods. The areas where various assumptions and estimates are significant to Company's financial statements are:

During the year ended June 30, 2022, the Company issued 16 BPPL Sukuk certificates, having face value of Rs. 1 million each aggregating to Rs. 16 million and entered into a diminishing musharaka agreement with the investment agent, Pak Oman Investment Company (trustee on behalf of the Sukuk holders) as a co-owner of the musharaka assets. The issue resulted in cash receipt of subscription money of Rs. 16 million. The Sukuk certificates carry profit at the rate of 3 months KIBOR + 1.5% with quarterly rental payments. These certificates are issued for a tenure of four years and are structured in such a way that first quarterly principal repayment installment commenced from the quarter ended September 2023. Under this arrangement the Company sold the beneficial ownership of the musharaka assets, its freehold land and building on freehold land, to the investment agent (for the benefit of Sukuk holders) although legal title remains with the Company. The overall arrangement has been accounted for in these financial statements on the basis of substance of the transaction.

The expected return on plan assets was determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as at reporting date.

**25.1.8 Expected expense for next year**

The expected expense to the pension and gratuity schemes for the year ending June 30, 2023 works out to Rs. 9.00 million and Rs. 26.05 million respectively.

**25.1.9 The plans expose the Company to the actuarial risks such as:****Salary risks**

The risk that the final salary at the time of cessation of service may be greater than that assumed in determination of present value of defined benefits obligations. As the benefit is calculated on the final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increase.

**Mortality / withdrawal risks**

The risks that the actual mortality / withdrawal experiences is different. The effect depends upon beneficiaries' service / age distribution and the entitled benefits of the beneficiary.

**Interest rate risks**

The risk that bond interest rate may be different. A decrease in bond interest rate will increase the liability, and vice versa.

**25.1.10 Actuarial assumptions sensitivity analysis**

If the significant actuarial assumptions used to estimate the defined benefit obligation at the reporting date, had fluctuated by 1% with all other variables held constant, the impact on the present value of the defined benefit obligation as at June 30, 2022 would have been as follows:

**Impact on present value of defined benefit obligation as at June 30, 2022**

	Change	Pension		Gratuity		
		Increase to	Decrease to	Increase to	Decrease to

**29 Contingencies and commitments****29.1 Contingencies**

- In 1987, the Company filed a suit against an ex-distributor (Asia paints) in the Sindh High Court (the court) for recovery of Rs. 8.89 million and damages amounting to Rs. 5 million on account of unpaid credit invoices for the products supplied by it to the distributor. However, the distributor in return also filed a counter claim amounting to Rs. 78.15 million against the Company in the court on account of damages and compensation. The management believes on the basis of legal advice that it has a strong case and no financial obligation is expected to arise. Accordingly, no provision has been made in the financial statements.
- The Company contracted Allied Engineering for installation of solar panels and solar systems at the factory. The process was to be completed in different phases. After the completion of initial phase, issues were identified in the solar systems installed. The Company opted to get the solar systems installed from another vendor while inviting Allied Engineering to reach a settlement. However, Allied Engineering wanted full execution of the contract and full payment of the agreed amount, out of which Rs. 4 million is unpaid at the reporting date. The management on the basis of legal advice, believes that it has a strong case and no further financial obligation is expected to arise.
- The Sindh Revenue Board (SRB) through an assessment raised sales tax demand amounting to Rs. 39.34 million along-with penalty. Department (SRB) had inadvertently added all royalty figures appearing in accounts including royalty receivable, royalty payable, royalty expense and related party transfers for the calculation of tax on royalties. The Company, through its legal counsel, filed an appeal before the Commissioner (Appeals) SRB on the grounds that amount of sales tax is not correctly calculated and the provisions of Sindh Sales Tax on Services Act, 2011 are not applicable for the reason that the Company is managing its affairs from the province of Punjab. The Commissioner (Appeals) had reduced the demand to Rs. 8.18 million, against which the Company had filed an appeal before Appellate Tribunal SRB which is pending adjudication. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome, hence no provision has been recorded in these financial statements.
- During 2018, the Deputy Commissioner Inland Revenue (DCIR) issued show cause notices for collection of income tax under section 236G / 236H of the Income Tax Ordinance 2001. In this regard, the taxation officer raised demand of Rs. 58.94 million for tax years 2014, 2015, 2016 and 2017 vide various assessment orders. The Company through its legal counsel filed appeals to Commissioner Inland Revenue Appeals (CIR - A) against the said orders which are still pending adjudication. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome, hence no provision has been recorded in these financial statements.
- The Additional Commissioner Inland Revenue (ACIR) and Deputy Commissioner Inland Revenue (DCIR), while proceeding U/S 122 of the Income Tax Ordinance, 2001 created income tax demands amounting to Rs. 484.38 million and 213.12 million for the tax years 2014 and 2016 respectively vide two separate orders. The Company filed an appeal before Commissioner Inland Revenue (Appeals), the Commissioner Inland Revenue (Appeals) remanded the case on some issues and confirmed additions to the tune of Rs. 32.99 million and Rs. 9.2 million for the tax year 2014 and 2016 respectively. The Company through its legal counsel had filed an appeal before ACIR which is pending adjudication. The management believes that it has a strong arguable case and matter will be decided in favor of the Company. Hence no provision has been recorded in these financial statements.
- The Commissioner Appeals - I, Lahore, vide its order for tax year 2016, deleted certain additions while remanding the case on certain issues and upheld the case on issue of contractor services which involves revenue amounting to Rs. 10.67 million. Appeal against this order has been filed which is pending adjudication. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome, hence no provision has been recorded in these financial statements.

- During the year 2016, a notice from Punjab Revenue Authority involving an amount of Rs. 11.45 million as royalty fee and technical services for the period October 2012 to March 2015 was issued which is under investigation / adjudication proceedings and no demand is raised. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome, hence no provision has been recorded in these financial statements.
  - Additional Commissioner Enforcement of Punjab Revenue Authority issued assessment order creating demand of Rs. 132 million under various section of Punjab Sales Tax on Services Act 2012. However, the Company through its legal counsel filed appeal before Commissioner Appeals PRA against the order of Additional Commissioner which is pending adjudication. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome, hence no provision has been recorded in these financial statements.
  - The Additional Commissioner Inland Revenue (ACIR) issued order under section 122 (5A) of the Income Tax Ordinance, 2001 for tax year 2019. The Company filed an appeal against the said order before Commissioner IR Appeals-I, Lahore who remanded back the case in respect of certain issues to the tune of Rs. 22.81 million which is pending adjudication, deleted certain additions and upheld the disallowance of initial allowance claimed amounting to Rs. 1.7 million. The Company has filed appeal before ATIR against this disallowance which is pending adjudication. The management on the basis of opinion of the tax advisor is hopeful for a favorable outcome, hence no provision has been recorded in these financial statements.
  - DCIR raised a demand amounting to Rs. 10.5 million in relation to sales tax on sales of scrap stock burnt in fire in 2008 which was upheld by Commissioner Appeals. This demand was later reduced by Appellate Tribunal up to the demand pertaining to sales tax on fixed assets. The Company being aggrieved by the order of ATIR, filed an appeal before honorable Lahore high court which was remanded back to the ATIR and is pending adjudication. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome, hence no provision has been recorded in these financial statements.
  - The DCIR passed order under section 161(1) for tax year 2014 and raised a demand amounting to Rs. 33.5 million. The Company filed an appeal before the Commissioner Inland Revenue (Appeals). The Appeals remanded back the case to the department for further assessment. Currently, no demand is in field against the Company.
  - Various cases on account of income tax and sales tax matters involving an amount Rs. 11.401 million are also pending. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome in all these cases, hence no provision has been recorded in these financial statements.
- 29.2 - Outstanding letters of guarantee as at June 30, 2022 amounts to Rs. 124.70 million (2021: Rs. 108.79 million).

### 29.3 Commitments

- Outstanding letters of credit as at June 30, 2022 amounts to Rs. 967.30 million (2021: Rs. 464.38 million) for purchase of raw and packing materials.
- The amount of future rentals for Ijarah financing and the period in which these payments will become due are as follows:

- Liquidity risk

The Company's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Company's financial performance.

##### 45.1.1 Risk management framework

The Board of Directors have the overall responsibility for the establishment and oversight of Company's risk management framework. The Board is also responsible for developing and monitoring the Company's risk management policies.

The Company's risk management policies are established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect to changes in market conditions and the Company's activities. The Company through its training and management standards and procedures aims to maintain a disciplined and constructive control environment in which employees understand their roles and responsibilities.

The Company's audit committee oversees how management monitors compliance with the Company's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. Audit committee is assisted in its oversight role by internal audit department. Internal audit department undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

#### 45.1.2 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Company's profit or loss or value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures with acceptable parameters, while optimizing return.

##### 45.1.2.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

The Company is exposed to currency risk arising from various currency exposures, primarily with respect to the Euro (EUR), RMB (Chinese Yuan), United States Dollar (USD) and Japanese Yen (JPY). Currently, the Company's foreign exchange risk exposure is restricted to the amounts payable to foreign entities.

The Company's exposure to foreign exchange risk is as follows:

	2022	2021
	(Amount in thousand)	
<b>Statement of financial position items</b>		
<b>Trade and other payables</b>		
- Euro	21	62
- USD	406	1,822
- RMB	-	935
- JPY	387	387
<b>Off statement of financial position items</b>		
Outstanding letters of credit as at the year end are as follows:		
- Euro	4	-
- USD	3,139	669
- RMB	-	69
- JPY	-	-

**2022**                      **2021**  
**(In rupees)**

The following significant exchange rates were applied during the year:

<b>Rupees per Euro</b>		
Average rate for the year	201.26	188.66
Reporting date rate	213.81	188.71
<b>Rupees per USD</b>		
Average rate for the year	181.58	163.18
Reporting date rate	204.85	158.30
<b>Rupees per RMB</b>		
Average rate for the year	27.50	24.08
Reporting date rate	30.60	24.39
<b>Rupees per JPY</b>		
Average rate for the year	1.47	1.50
Reporting date rate	1.50	1.43

#### **Sensitivity analysis**

At reporting date, if the PKR had strengthened by one rupee against the foreign currencies with all other variables held constant, profit after tax for the year would have been higher by the amount shown below, mainly as a result of net foreign exchange gain on translation of foreign currency loans.

	<b>2022</b>	<b>2021</b>
	<b>(Amount in thousand)</b>	
<b>Effect on profit or loss</b>		
- Euro	15	44
- USD	288	664
- RMB	-	1,294
- JPY	275	275

The weakening of the PKR against foreign currencies would have had an equal but opposite impact on the post tax profit.

The sensitivity analysis prepared is not necessarily indicative of the effects on profit / (loss) for the year and assets / liabilities of the Company.

#### **45.1.2.2 Price risk**

Other price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Company is not exposed to commodity price risk since it has a diverse portfolio of commodity suppliers.

**Sensitivity analysis**

The Company's investments in equity instrument of other entities are publicly traded on the PSX. The summary below explains the impact of increase on the Company's surplus on investment classified as FVOCI to change in market price. The analysis is based on the assumption that the market price had increased by 10% with all other variables held constant:

	Impact on equity	
	2022	2021
	(Rupees in thousands)	
Buxly Paints Limited	3,346	1,505

The sensitivity analysis prepared is not necessarily indicative of the effects on profit after tax for the year and assets / liabilities of the Company.

**45.1.2.3 Interest rate risk**

Interest rate risk is the risk that fair values or future cash flows of a financial instrument will fluctuate because of changes in interest rates. Significant interest rate risk exposures are primarily managed by a mix of borrowings at variable interest rates. Sensitivity to interest rate risk arises from mismatch of financial assets and financial liabilities that mature or re-price in a given period.

			1,467,368	962,099

**Cash flow sensitivity analysis for fixed rate instruments**

The Company does not account for any fixed rates financial assets and liabilities at fair value through profit or loss. Therefore, a change in profit / mark-up / interest rates at the reporting date would not affect profit or loss.

**Cash flow sensitivity analysis for variable rate instruments**

A change of 100 basis points in interest rates at the reporting date would have increased / (decreased) profit for the year by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis as for 2022.

#### 45.1.3 Credit risk

Credit risk represents the financial loss that would be recognized at the reporting date if the counterparties fail completely to perform as contracted / fail to discharge an obligation / commitment that it has entered into with the Company. Concentration of credit risk arises when a number of counterparties are engaged in similar business activities, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentration of credit risk indicates the relative sensitivity of a company's performance to developments affecting a particular industry.

#### Concentration of credit risk

The Company identifies concentrations of credit risk by reference to type of counter party. Maximum exposure to credit risk by type of counterparty is as follows:

	<b>2022</b>	<b>2021</b>
	<b>(Rupees in thousand)</b>	
Trade debts	1,628,302	1,219,678

Others	238,055	200,703
	<b>2,229,047</b>	<b>1,603,847</b>

**45.1.3.1 Loan to related party**

Loan to related party is secured by a charge over stock in trade, trade debts and personal guarantee of Directors of the Company. There is no increase in credit risk since origination and the loan is repayable in short term. Hence, the management believes that no impairment allowance is necessary in respect of the loan.

**45.1.3.2 Trade deposits and other receivables**

Deposits and other receivables represents deposits held by government institutions and vendors. The Company has assessed, based on historical experience, that the expected credit loss associated with these financial assets is generally trivial. Hence, no additional allowance has been recognised in these financial statements.

**45.1.3.3 Receivable from related party**

The Company uses an allowance matrix to measure ECLs on receivables from related parties. Loss rates are determined using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency. The future recoveries from related parties are accounted for in calculating the loss rate.

**45.1.3.4 Long term loans**

Long term loans are due from employees of the Company and are secured against assets. Hence, the management believes that no impairment allowance is necessary in respect of these loans.

**45.1.3.5 Trade debts**

The Company uses an allowance matrix to measure ECLs of trade debts. Loss rates are calculated using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency. The future recoveries from trade debtors are accounted for in calculating the loss rate.

#### 45.1.3.6 Balances with banking companies

The Company held balances with banks, short term investments and LC margin amounting to Rs. 362.69 million as at June 30, 2022. These are held with banks and financial institutions counterparties, which are rated A1 to AAA, based on credit ratings from rating agencies.

Impairment on these financial assets has been measured on a 12 month expected loss basis and reflects short term maturities of the exposure. The Company considers that these balances have low credit risk based on the external ratings of the counterparties.

12 month probabilities of default are based on historical data supplied by PACRA and VIS rating agency for each credit rating. Loss given default (LGD) parameters generally reflect assumed recovery rates based on recovery rates assumed in Basel Guidelines for unsecured exposures.

				362,690	183,466

The Company has not recognised an impairment allowance on bank balances during the year ended June 30, 2022, as the impact was immaterial.

**45.1.4 Liquidity risk**

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities, that are settled by delivering cash or other financial asset, or that such obligation will have to be settled in a manner unfavorable to Company. The Company's approach to managing liquidity is to ensure, as far as possible that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions. The Company finances its operations through equity, borrowings and working capital with a view to maintaining an appropriate mix between various sources of finance to minimize risk. The management aims to maintain flexibility in funding by keeping regular committed credit limits.

The following are the contractual maturities of financial liabilities as at June 30, 2022

It is not expected that the cash flows on the maturity analysis could occur significantly earlier, or at significant different amount.

**45.2 Fair value measurement of financial instruments**

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Company is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted price is readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and that price represents actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the Company to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities that entity can access at measurement date (Level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2)
- Inputs for the asset or liability that are not based on observable market data (i.e. unobservable) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognised at the end of the reporting period during which the changes have occurred.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

**45.3 Fair value versus carrying amounts**

The Company has not disclosed the fair values of financial assets and liabilities which are for short term or repriced over short term. Therefore, their carrying amounts are reasonable approximation of fair value.

**45.4** Freehold land, leasehold land, building on freehold land, building on leasehold land and plant and machinery have been carried at revalued amounts determined by professional valuers (level 3 measurement) based on their assessment of the values as disclosed. The valuations are conducted by an independent valuation expert appointed by the Company. The valuation expert used a market based approach to arrive at the fair value of the Company's land and building. The valuation was determined by reference to current market value of the similar properties / assets. The most significant input into this valuation approach is price per acre for land, price per square foot for buildings and present operational condition and age of plant and machinery respectively. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty, accordingly a qualitative disclosure of sensitivity has not been presented in these financial statements.

**46 Capital risk management**

The Company's objectives when managing capital is to safeguard the Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Company may adjust the amount of dividends paid to shareholders, return capital to shareholders through repurchase of shares, issue new shares or sell assets to reduce debt. Consistent with others in the industry and the requirements of the lenders, the Company monitors the capital structure on the basis of gearing ratio.

This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings including current and non-current borrowings. Total capital is calculated as 'equity' as shown in the statement of financial position plus net debt. The gearing ratios as at year end are as follows:

	<b>2022</b>	<b>2021</b>
	<b>Rupees</b>	<b>Rupees</b>

# Directors' Report

For the year ended 30 June 2022

The Directors of the Holding Company present their report together with the audited consolidated financial statements for the year ended June 30, 2022.

## ECONOMY OF PAKISTAN

Though Pakistan survived from the COVID-19 crisis, it faced the daunting tasks in FY2022 such as controlling fiscal deficit, curtailing current account deficit, managing pressure on exchange rate along with achieving a sustainable economic revival. Rupee devaluation: this single factor has left businesses in challenging situation where importers are facing significant difficulties in procurement of raw material through imports.

In early 2022, the Russian-Ukraine conflict elevated global commodity prices which also fueled domestic market inflation. Threats from high inflation, rising interest rates, lingering supply constraints, and mounting uncertainties have badly affected the financial performance of most of the companies. The ongoing Political instability in the country has further affected the situation.

## BUSINESS PERFORMANCE

The Company remains committed to deliver on its long-term objectives of sustainable growth and value creation. This is being achieved through continued focus on operational excellence, product portfolio diversification, cost reduction and a strong capital structure.

Sales outperformed against targets and resultantly Net Sales for the year recorded at Rs. 7,125 million as compared to Rs. 5,660 million in last year, up by 26%. Increase in sales volumes, better product mix and cost reduction measures improved gross profit from Rs. 1,142 million to Rs. 1,243 million, up by 9%.

Selling, Marketing and Administrative expenses were Rs. 876 million compared with Rs. 727 million of the previous year, up by 21%, effect of general inflation and mainly because of the measures introduced for cost efficiencies and cancellation of discretionary expenses during last year due to the outbreak of COVID-19 in March 20.

Financial costs were increased by Rs. 46 million due to increase in KIBOR rate as compared to previous year.

## ڈائریکٹرز کی رپورٹ

ہولڈنگ کمپنی کے ڈائریکٹرز 30 جون 2022ء کو اختتام پذیر سال کے لئے پڑتال شدہ منجمد مالیاتی اسٹیٹمنٹس کے ہمراہ اپنی رپورٹ پیش کرتے ہیں۔

### پاکستانی معیشت

اگرچہ پاکستان کرونا وائرس بحران سے نکل چکا ہے لیکن مالیاتی سال 2022ء کے دوران کمپنی کو کرنٹ اکاؤنٹ خسارہ کنٹرول کرنے، شرح مبادلہ پر دباؤ کو منبج کرنے اور پائیدار معاشی بحالی جیسے مشکل چیلنجز کا سامنا کرنا پڑا۔ روپے کی قدر میں کمی: اس واحد محرک نے کاروباری سرگرمیوں کو مشکل حالات میں ڈال دیا ہے۔ جہاں درآمد کنندگان کو خام مال حاصل کرنے کے لئے بھی مشکلات کا سامنا کرنا پڑتا ہے۔

سال 2022ء کے آغاز میں روس-یوکرین تنازعہ کے باعث عالمی سطح پر اشیاء کی قیمت میں اضافہ ہوا جس کی وجہ سے ملکی سطح پر بھی افراط زر کو ہوائی۔ بلند افراط زر کی شرح اور شرح سود، سپلائی میں تعطل اور بڑھتی ہوئی غیر یقینی کی صورت حال نے اکثر کمپنیوں کی مالیاتی کارکردگی پر بے اثرات مرتب کئے ہیں۔ ملک میں جاری سیاسی عدم استحکام نے حالات میں مزید بگاڑ پیدا کر دیا ہے۔

### کاروباری کارکردگی

کمپنی دائمی نموا اور مصنوعات میں جدت کے اپنے طویل مدتی مقاصد حاصل کرنے کے لئے کوشاں رہی۔ یہ مقاصد آپریشنل عمدگی، پروڈکٹ پورٹ فولیو میں تنوع، لاگت میں کمی اور سرمایے کے مستحکم ڈھانچے پر توجہ دے کر حاصل کئے جاسکتے ہیں۔

سیلز میں اہداف کے مقابلے میں کمی کارکردگی دکھائی اور نتیجتاً مذکورہ سال میں خالص سیلز گذشتہ برس میں 5,660 ملین روپے کے مقابلے میں 26 فی صد اضافے کے ساتھ 7,125 ملین روپے ریکارڈ ہوئی۔ سیلز کے حجم میں اضافہ، بہتر پروڈکٹس اور لاگت میں کمی کے اقدامات کے باعث کل منافع 1,142 ملین روپے کے مقابلے میں 9 فی صد اضافے کے ساتھ 1,243 ملین روپے ریکارڈ ہوا۔

عمومی افراط زر کے اثرات اور لاگت کنٹرول کرنے کے اقدامات اور مارچ 2020ء میں کرونا وائرس کے حملے اور گذشتہ برس کے دوران صوابدیدی اخراجات کے خاتمہ کے باعث سیلنگ، مارکیٹنگ اور ایڈمنسٹریٹو اخراجات گذشتہ برس کے دوران 727 ملین روپے کے مقابلے میں 21 فی صد اضافے کے ساتھ 876 ملین روپے رہے۔ مالیاتی لاگت میں گذشتہ برس کے مقابلے میں بلند KIBOR کے باعث 46 ملین روپے اضافہ ہوا۔

### روپے ہزار میں

251,551	ٹیکس سے پیشتر منافع
(55,874)	ٹیکسیشن
195,677	ٹیکس کے بعد منافع
1,542	اقلیتوں کا مفاد
194,135	سال کے لیے خالص منافع ہولڈنگ کمپنی سے منسوب ہے۔

### مالیاتی اسٹیٹمنٹس

30 جون 2022ء کو اختتام پذیر سال کے لئے ہولڈنگ کمپنی کے پڑتال شدہ کھاتے ساتھ منسلک ہیں۔

### ہولڈنگ کمپنی

برجر پیٹینٹس پاکستان لمیٹڈ کی ہولڈنگ کمپنی میسرز سلاٹ ریپڈ لمیٹڈ ہے جو B.V.I. میں رجسٹر ہے۔

# INDEPENDENT AUDITOR'S REPORT

## To the members of Berger Paints Pakistan Limited

### Opinion

We have audited the annexed consolidated financial statements of Berger Paints Pakistan Limited and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at June 30, 2022, and the consolidated statement of profit or loss, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at June 30, 2022, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

### Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the consolidated financial statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Following is the Key audit matter:

Sr. No.	Key audit matter	How the matters were addressed in our audit
1.	<p><b>Revenue recognition</b> (Refer note 31 to the annexed consolidated financial statements)</p> <p>The Group is principally engaged in the production and sale of paints, varnishes and other related items in the local and export markets.</p> <p>Revenue from sale of goods is recognised when the performance obligation is satisfied by transferring control of promised goods to the customers.</p>	<p>Our audit procedures in relation to the matter, amongst others, included the following:</p> <ul style="list-style-type: none"> <li>• understood and evaluated management controls over revenue and checked their validation;</li> <li>• performed verification of sales with underlying documentation including dispatch documents and sales invoices;</li> <li>• tested on a sample basis, specific revenue transactions recorded before and after the reporting date with underlying documentation to assess whether revenue has been recognized in the correct period;</li> <li>• verified that sales prices are approved by the appropriate authority;</li> </ul>

Sr. No.	Key audit matter	How the matters were addressed in our audit
	<p>We consider revenue recognition as a key audit matter due to revenue being one of the key performance indicators of the Group. Revenue for the year has increased significantly as compared to the last year. In addition, revenue was also considered as an area of an inherent risk of material misstatement and significant audit risk as part of the audit process.</p>	<ul style="list-style-type: none"> <li>• tested on a sample basis, specific discounts as per Group's policy;</li> <li>• performed analytical procedures to analyse variation in the price and quantity sold during the year;</li> <li>• tested journal entries relating to revenue recognised during the year based on identified risk criteria; and</li> <li>• assessed the adequacy of disclosures made in the consolidated financial statements related to revenue.</li> </ul>

#### **Information Other than the Consolidated and Separate Financial Statements and Auditor's Reports Thereon**

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated and separate financial statements and our auditor's reports thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

#### **Responsibilities of Management and Board of Directors for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with the accounting and reporting standards as applicable in Pakistan and Companies Act, 2017 and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is responsible for overseeing the Group's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in

the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

**Other Matter**

The consolidated financial statements of the Group for the year ended June 30, 2021 were audited by another firm of Chartered Accountants who vide their report dated October 7, 2021 expressed an unmodified opinion thereon.

The engagement partner on the audit resulting in this independent auditor's report is Hammad Ali Ahmad.

### 2 Basis of preparation and statement of compliance

#### 2.1 Consolidated financial statements

These consolidated financial statements comprise the financial statements of the Parent Company and its subsidiary companies as at June 30, 2022.

##### (a) Subsidiaries

Subsidiaries are entities controlled by the Group. The Group 'controls' an entity when it is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. The financial statements of subsidiaries are included in the consolidated financial statements from the date on which control commences until the date on which the control ceases.

The financial statements of the subsidiary companies have been consolidated on a line-by-line basis and the carrying values of the investments held by the Group have been eliminated against the shareholders' equity in the subsidiary companies.

The financial statements of the subsidiaries are prepared for the same reporting year as the Parent Company, using consistent accounting policies.

All intragroup balances, transactions, income and expenses and profits or losses resulting from intragroup transactions that are recognised in assets, are eliminated in full.

The subsidiaries are fully consolidated from the date of acquisition, being the date on which the group obtains control, and continue to be consolidated until the date that such control ceases.

**(b) Non-controlling interest**

Non-controlling interest is that part of net results of operations and of net assets of the subsidiaries which are not owned by the Group. Non-controlling interest is presented as a separate item in the consolidated financial statements.

NCI are measured initially at their proportionate share of acquiree's identifiable net assets at the date of acquisition. The Group applies a policy of treating transactions with non-controlling interests as transactions with parties external to the Group. Disposals to non-controlling interests result in gains and losses for the Group and are recorded in the consolidated statement of profit or loss.

**(c) Interests in equity - accounted investees**

The Group's interests in equity- accounted investees comprise interests in associates.

Associates are all entities over which the Group has significant influence but not control, or joint control over the financial and operating policies. The Group's share of its associate's post-acquisition profit or loss is recognised in the consolidated statement of profit or loss, and its share of post-acquisition movements in reserves is recognised in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

Unrealised gains on transactions between the Group and its associates are eliminated to the extent of the Group's interest in the associates. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred.

**2.2 Statement of compliance**

These consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:

- International Financial Reporting Standards (IFRS) issued by the International Accounting Standards Board (IASB) as notified under the Companies Act 2017;
- Islamic Financial Accounting Standards (IFAS) issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017; and
- Provision of and directives issued under the Companies Act, 2017.

Where provisions of and directives issued under the Companies Act, 2017 differ from the IFRS and IFAS, the provisions of and directives issued under the Companies Act, 2017 have been followed.

**2.3 Basis of measurement**

These consolidated financial statements have been prepared under the historical cost convention except for:

- measurement of certain financial instruments at fair value;
- the measurement of certain items of property, plant and equipment at revalued amounts;
- recognition of employee retirement benefits at present value; and
- certain foreign currency translation adjustments.

## 2.4 Functional and presentation currency

These consolidated financial statements are presented in Pakistan Rupees (Rs.), which is the Group's functional and presentation currency.

## 3 Changes in accounting standards, interpretations and pronouncements

### a) Interpretations and amendments to published approved accounting standards that became effective during the year but are not relevant

There are certain amendments and interpretations to the accounting and reporting standards which are mandatory for the Group's annual accounting period which began on July 1, 2021. However, these do not have any significant impact on the Group's financial statements.

### b) Interpretations and amendments to published approved accounting standards that are not yet effective

There are certain amendments and interpretations to the accounting and reporting standards which are mandatory for the Group's annual accounting period which began on July 1, 2021. However, these do not have any significant impact on the Group's financial statements.

<b>Standard or interpretation</b>	<b>Effective Date (Annual periods beginning on or after)</b>
Property, Plant and Equipment: Proceeds before intended use – Amendments to IAS 16	January 01, 2022
Cost of Fulfilling an Onerous Contracts – Amendments to IAS 37	January 01, 2022
Updating a Reference to the Conceptual Framework – Amendments to IFRS 3	January 01, 2022
Classification of Liabilities as Current or Non-current – Amendments to IAS 1	January 01, 2024
Amended by Definition of Accounting Estimates – Amendments to IAS 8	January 01, 2023
Deferred tax related to assets and liabilities arising from a single transaction – Amendment to IAS 12	January 01, 2023

The management is in the process of assessing the impact of changes laid down by these standards on its financial statements.

In addition to the above standards and amendments, improvements to various accounting standards have also been issued by the IASB in previous years. Such improvements are generally effective for accounting periods beginning on or after January 01, 2022 and January 01, 2023 respectively. The Group expects that such improvements to the standards will not have any significant impact on the Group's financial statements in the period of initial application.

## 4 Significant accounting policies

The accounting policies adopted for the preparation of the consolidated financial statements are set out below. The accounting policies have been consistently applied to all the years presented.

### 4.1 Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and any identified impairment loss, except for freehold and leasehold land, buildings thereon and plant and machinery, which are stated at revalued amounts less any subsequent accumulated depreciation and subsequent accumulated impairment losses, if any. Cost comprises purchase price, non refundable duties and taxes after deducting trade discounts and rebates, and includes other costs directly attributable to the acquisition or construction.

Increases in the carrying amount arising on revaluation of property, plant and equipment are credited to the revaluation surplus on property, plant and equipment account except for a reversal of deficit already charged to statement of profit or loss. A revaluation deficit is recognized in profit or loss, except for a deficit directly offsetting a previous surplus, in which case the deficit is taken to revaluation surplus on property, plant and equipment. The revaluation surplus on property, plant and equipment to the extent of the annual incremental depreciation based on the revalued carrying amount of the assets is transferred annually directly to accumulated profit net of related deferred tax. Any accumulated depreciation at the revaluation date is eliminated against the gross carrying amount of the assets and the net amount is adjusted to the revalued amount of the assets.

Upon disposal, any revaluation reserve relating to the particular assets being sold is transferred to accumulated profits. All transfers to / from revaluation surplus on property, plant and equipment account are net of applicable deferred tax.

Depreciation on all property, plant and equipment except freehold land is charged to profit or loss using the straight line method whereby the cost less residual value of an asset is written off over its estimated useful life. Residual values are reviewed at each reporting date and adjusted if the impact on depreciation is significant.

Useful lives are regularly reviewed by the management based on expected usage of assets, expected physical wear and tear, technical and commercial obsolescence, legal and similar limits on the use of the assets and other similar factors.

Depreciation on additions to property, plant and equipment is charged from the month in which the asset is put to use while depreciation on assets disposed off is charged up to the month preceding the disposal.

An item of property, plant and equipment is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Gains or losses on disposal of property, plant and equipment are represented by the difference between the sale proceeds and the carrying amount of the asset and is recognized as an income or expense in the consolidated statement of profit or loss.

Maintenance and normal repairs are charged to consolidated statement of profit or loss as and when incurred. Major renewals and improvements are capitalized.

#### **Right-of-use asset and Lease liability**

At inception of a lease contract, the Group assesses whether a contract is, or contains, a lease based on whether the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions.

The Group applies a practical expedient and, does not recognise right-of-use assets and lease liabilities for short term leases that have a lease term of 12 months or less and leases of low-value assets, if any. The lease payments associated with these leases is recognised as an expense on a straight line basis over the lease term.

For lease contracts other than the aforementioned, the lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease, or if that rate cannot be readily determined, the Group's incremental borrowing rate.

Lease payments include fixed payments, variable lease payment that are based on an index or a rate and amounts expected to be payable by the lessee under residual value guarantees, the exercise price of a purchase option if the lessee is reasonably certain to exercise that option, payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option, less any lease incentives receivable. The extension and termination options are incorporated in determination of lease term only when the Group is reasonably certain to exercise these options.

The lease liability is subsequently measured at amortised cost using the effective interest rate method. It is remeasured when there is a change in future lease payments arising from a change in fixed lease payments or an index or rate, change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option. The corresponding adjustment is made to the carrying amount of the right-to-use asset, or is recorded in the consolidated statement of profit and loss account if the carrying amount of right-to-use asset has been reduced to zero.

The right-of-use asset is initially measured based on the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentive received. The right-of-use asset is depreciated on a straight line method over the lease term as this method most closely reflects the expected pattern of consumption of future economic benefits. The right-of-use asset is reduced by impairment losses.

### **Capital work in progress**

Capital work in progress is stated at cost less any identified impairment loss and represents expenditure incurred on property, plant and equipment during the construction and installation. Cost also includes applicable borrowing costs. Transfers are made to relevant property, plant and equipment category as and when assets are available for use as intended.

The Group assesses at each reporting date whether there is any indication that the assets may be impaired. If such indication exists, the carrying amounts of such assets are reviewed to determine whether they are recorded in excess of their recoverable amounts. Where carrying values exceed the respective recoverable amount, assets are written down to their recoverable amounts and the resulting impairment loss is charged to the consolidated statement of profit or loss currently except for impairment loss on revalued assets, which is recognized directly against any revaluation surplus for the related asset to the extent that the impairment loss does not exceed the amount held in the revaluation surplus for the same asset.

## **4.2 Intangible assets**

Intangibles are recognized when it is probable that the expected future economic benefits will flow to the Group and the cost of the asset can be measured reliably. Intangibles are measured initially at cost. The cost of intangible comprises of its purchase price including non-refundable purchase taxes after deducting trade discounts and rebates and includes other costs directly attributable to acquisition. Cost incurred after the asset is in the condition necessary for it to operate in the manner intended by management are recognised in consolidated statement of profit or loss.

### **4.2.1 Computer software**

Expenditure incurred to acquire computer software are capitalized as intangible assets and stated at cost less accumulated amortization and any identified impairment loss.

Amortization on assets with finite useful life is charged to the consolidated statement of profit or loss on straight line basis so as to write off the cost of an asset over its estimated useful life. Amortization on addition is charged from the month in which the asset is acquired or capitalized while no amortization is charged for the month in which the asset is disposed off. Amortization is being charged at annual rates as specified in note 7.

### **4.2.2 Goodwill acquired in business combinations**

The purchase method of accounting is used to account for the acquisition of businesses by the Group. The cost of an acquisition is measured as the fair value of the assets given, equity instruments issued and liabilities incurred or assumed, if any, at the date of exchange, plus costs directly attributable to the acquisition. Identifiable assets acquired and liabilities and contingent liabilities, if any, assumed in a business combination are measured initially at their fair values at the acquisition date. The excess of the cost of acquisition over the fair value of the identifiable net assets acquired is recognized as goodwill. Subsequent to initial recognition, goodwill is measured at cost less accumulated impairment loss, if any.

### **4.2.3 Impairment**

Goodwill and intangible assets that have an indefinite useful life are not subject to amortization and are tested annually for impairment, or more frequently if events or changes in circumstances indicate that they might be impaired. Other assets are tested for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs of disposal and value in use.

**4.3 Stores, spare parts and loose tools**

These are valued at moving weighted average cost less any identified impairment except for items in transit, which are valued at invoice price and related expenses incurred. Items considered obsolete are carried at nil value. General stores and spare parts are charged to consolidated statement of profit or loss. The Group reviews the carrying amount of stores on a regular basis and provision is made for obsolescence if there is any change in usage pattern and physical form of related stores.

**4.4 Stock in trade**

Stock in trade is valued at lower of cost and Net Realizable Value (NRV).

Cost comprises all costs of purchase, costs of conversion and other costs incurred in bringing the inventories to their present location and condition and valuation has been determined as follows:

Raw materials, packing materials and semi-processed goods	Moving weighted average cost
Finished goods	Moving weighted average manufacturing cost
Finished goods purchased for resale	Moving weighted average cost
Stock in transit	Invoice value plus other charges paid thereon up to the reporting date

NRV signifies the estimated selling price in the ordinary course of business less estimated costs of completion and selling expenses.

Provision for obsolete and slow moving stock in trade is based on management's estimate and is recognised in consolidated financial statements whenever necessary.

**4.5 Trade debts and other receivables**

These are classified at amortized cost and are initially recognised when they are originated and measured at fair value of consideration receivable. An impairment allowance i.e. expected credit loss is calculated based on actual credit loss experience over the past years. The Group applies a simplified approach in calculating Expected Credit Loss (ECL). The Group has established a provision matrix that is based on its historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. The Group recognises a loss allowance based on lifetime ECLs at each reporting date. The impairment allowance is recognized in the consolidated statement of profit or loss. These assets are written off when there is no reasonable expectation of recovery.

**4.6 Cash and cash equivalents**

Cash and cash equivalents comprise of short-term running finance, cash and balances and investments with maturities of three months or less from acquisition date that are subject to insignificant risk of changes in fair value. Bank overdrafts that are repayable on demand and form an integral part of the Group's cash management are included as a component of cash and cash equivalents for the purpose of consolidated statement of cash flows.

**4.7 Financial instruments****4.7.1 Classification and measurement of financial assets and financial liabilities**

Under IFRS 9, on initial recognition, the Group classifies its financial assets in the following measurement categories:

- Those to be measured subsequently at fair value either through other comprehensive income (FVOCI), or through profit or loss (FVTPL); and
- Those to be measured at amortized cost.

The classification depends upon entity's business model for managing the financial assets and the contractual terms of the cash flows.

The following assessments are made on the basis of the facts and circumstances that exist at the date of initial application:

-The determination of business model within which a financial asset is held; and

- The designation of certain financial assets with respect to subsequent measurement either through profit or loss or other comprehensive income.

A financial asset is measured at amortised cost if it meets both of the following conditions:

- it is held within business model whose objective is to hold assets to collect contractual cash flows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on principal amount outstanding.

A debt investment is measured at FVOCI if it meets both of the following conditions:

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

On initial recognition of an equity investment that is not held for trading, the Group may irrevocably elect to present subsequent changes in the investment's fair value in OCI. This election is made on an investment-by-investment basis.

All financial assets not classified as measured at amortized cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Group may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortized cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

A financial asset is initially measured at fair value plus, for an item not at FVTPL, transaction costs that are directly attributable to its acquisition.

The following accounting policies apply to the subsequent measurement of financial assets:

**i) Financial assets at FVTPL**

These assets are subsequently measured at fair value. Net gains and losses, including an interest / markup or dividend income, are recognized in consolidated statement of profit or loss.

**ii) Financial assets at amortised cost**

These assets are subsequently measured at amortised cost using effective interest method. The amortised cost is reduced by impairment losses, if any. Interest / markup income, foreign exchange gains, losses and impairment are recognized in consolidated statement of profit or loss.

**iii) Debt investments at FVOCI**

These assets are subsequently measured at fair value. Interest / markup income calculated using the effective interest method, foreign exchange gains and losses and impairment are recognized in the consolidated statement of profit or loss. Other net gains and losses are recognized in the consolidated statement of comprehensive income. On derecognition, gains and losses accumulated in consolidated statement of comprehensive income are reclassified to consolidated statement of profit or loss.

**iv) Equity investments at FVOCI**

These assets are subsequently measured at fair value. Dividends are recognized in consolidated statement of profit or loss unless the dividend clearly represents a recovery of part of the cost of the investment. Other net gains and losses are recognized in consolidated statement of comprehensive income and are never reclassified to consolidated statement of profit or loss.

#### 4.7.2 Impairment

The Group recognizes loss allowances for ECL on:

- financial assets measured at amortized cost;
- debt investments measured at FVOCI
- contract assets

An impairment loss is recognized if the carrying amount of the assets exceeds its estimated recoverable amount. Impairment losses are recognized in consolidated statement of profit or loss. Impairment losses recognized in prior periods are assessed at each reporting date for any indications that the loss has decreased or no longer exists.

Additional information about how the Group measures allowance for impairment is detailed in note 46.1.3 of these consolidated financial statements.

#### 4.7.3 Derecognition

##### Financial assets

The Group derecognizes a financial asset when the contractual rights to the cash flows from the financial asset expire, or it transfers the rights to receive the contractual cash flows in a transaction in which substantially all of the risks and rewards of ownership of the financial asset are transferred or in which the Group neither transfers nor retains substantially all of the risks and rewards of ownership and it does not retain control of the financial asset.

The Group might enter into transactions whereby it transfers assets recognized in its consolidated statement of financial position, but retains either all or substantially all of the risks and rewards of the transferred assets. In these cases, the transferred assets are not derecognized.

##### Financial liabilities

The Group derecognizes a financial liability when its contractual obligations are discharged or cancelled, or expired. The Group also derecognizes a financial liability when its terms are modified and the cash flows of the modified liability are substantially different, in which case a new financial liability based on the modified terms is recognized at fair value. On derecognition of a financial liability, the difference between the carrying amount extinguished and the consideration paid (including any non-cash assets transferred or liabilities assumed) is recognized in consolidated statement of profit or loss.

#### 4.7.4 Offsetting

Financial assets and financial liabilities are offset and the net amount presented in the consolidated statement of financial position when, and only when, the Group currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and settle the liability simultaneously.

#### 4.8 Provisions

Provisions are recognized when, the Group has a present obligation (legal or constructive) as a result of past events, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligations and reliable estimates of the obligations can be made. Provisions are reviewed periodically and adjusted to reflect the current best estimates.

#### 4.9 Contingent assets

Contingent assets are possible assets those arise from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group and are disclosed when inflow of economic benefits is probable. Contingent assets are not recognized until their realization become virtually certain.

#### 4.10 Contingent liabilities

A contingent liability is disclosed when:

- there is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Group; or

- there is present obligation that arises from past events but it is not probable that an outflow of resources embodying economic benefits will be required to settle the obligation or the amount of the obligation cannot be measured with sufficient reliability.

#### 4.11 Revenue recognition

Revenue represents the fair value of the consideration received or to be received from the sale of goods, net of sales tax, sales return and related discounts. Revenue is measured based on the consideration specified in a contract with customer. The Group recognises revenue when it transfers control of the goods. The customers obtain control when the goods are delivered to them and have been accepted at their premises except for exports where control is transferred at the time of dispatch. Invoices are generated at that point in time. The Group's customer arrangements contain a single performance obligation to transfer manufactured or purchased paints, varnishes and other related items.

#### 4.12 Contract liabilities

A contract liability is the obligation of the Group to transfer goods or services to a customer for which the Group has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Group transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Group performs under the contract.

#### 4.13 Taxation

Income tax expense comprises of current and deferred tax. It is recognised in the consolidated statement of profit or loss except to the extent that it relates to items recognised in the consolidated statement of comprehensive income, in which case it is recognised in equity.

##### Current tax

Provision for current tax is based on the taxable income for the year determined in accordance with the prevailing law for taxation of income. The charge for current tax is calculated using prevailing tax rates or tax rates expected to apply to the profit for the year if enacted after taking into account tax credits, rebates and exemptions, if any.

The charge for current tax also includes adjustments, where considered necessary, to provision for tax made in previous years arising from assessments framed during the year for such years. Under / over paid amount of current tax is recorded as tax refundable / payable due from / to the Government.

The Group takes into account the current income tax law and decisions taken by the taxation authorities. Instances where the Group's views differ from the views taken by the income tax department at the assessment stage and where the Group considers that its view on items of material nature is in accordance with law, the amounts are shown as contingent liabilities.

##### Deferred tax

Deferred tax is recognized in respect of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for taxation purposes. Deferred tax is not recognized for;

- temporary differences on the initial recognition of assets or liabilities in a transaction that is not a business combination and that affects neither accounting nor taxable profit or loss;
- temporary differences related to investments in subsidiaries, associates and joint arrangements to the extent that the Group is able to control the timing of the reversal of the temporary differences and it is probable that they will not reverse in the foreseeable future.
- temporary differences arising on the initial recognition of goodwill.

Deferred tax assets are recognized for unused tax losses, unused tax credits and deductible temporary differences to the extent that it is probable that future taxable profits will be available against which they can be used. Future taxable profits are determined based on the reversal of relevant taxable temporary differences. If the amount of taxable temporary differences is insufficient to recognize a deferred tax asset in full, then future taxable profits, adjusted for reversals of existing temporary differences, are considered. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefit will be realized; such reductions are reversed when the probability of future taxable profits improves.

Unrecognized deferred tax assets are reassessed at each reporting date and recognized to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantively enacted at the reporting date.

#### **4.14 Trade and other payables**

Trade payables are obligations under normal short-term credit terms. These are measured at the undiscounted amount of cash to be paid.

#### **4.15 Employee benefits**

##### **4.15.1 Short term employee benefits**

Short-term employee benefits are expensed as the related service is provided. A liability is recognised for the amount expected to be paid if the Group has a present legal or constructive obligation to pay this amount as a result of past service provided by the employee and the obligation can be estimated reliably.

##### **4.15.2 Defined benefit plan**

The Group operates the following defined benefit schemes for employees of the Parent Company:

- a) An approved and funded pension scheme for all executives; and
- b) An approved and funded gratuity scheme for all its permanent employees.

###### **Pension scheme**

The Parent Company offers pension benefits to its executive staff. Monthly pension is calculated as two percent of the average basic salary of the last year multiplied with pensionable service.

###### **Gratuity scheme**

The Parent Company offers gratuity benefits to its all of its permanent employees, and is payable to employees having service in the Parent Company for minimum five years. The gratuity benefits provided by the Parent Company is calculated by multiplying last drawn basic salary with number of years of service and gratuity factor.

Actuarial valuation are carried out using the 'Projected Unit Credit Method'. Contributions to the schemes are based on these valuations. Remeasurements of the defined benefit liability, which comprise actuarial gains and losses, is recognised immediately in the consolidated statement of comprehensive income. The Parent Company determines the interest expense on the defined benefit liability for the period by applying the discount rate used to measure the defined benefit obligation at the beginning of the annual period to the then defined benefit liability, taking into account any changes in the net defined benefit liability during the period as a result of benefit payments. Interest expense and other expenses related to defined benefit plan are recognized in the consolidated statement of profit or loss. The Parent Company recognises gains and losses on the settlement of a defined benefit plan when the settlement occurs.

The actual return on plan assets represents the difference between the fair value of plan assets at the beginning of the year and as at the end of the year after adjustments for contributions made by the Parent Company as reduced by benefits paid during the year.

##### **4.15.3 Defined contribution plan**

###### **Provident fund**

The Group also operates a recognized provident fund scheme for its Parent Company's employees. Equal monthly contributions are made, both by the Parent Company and its employees, to the fund at the rate of ten percent of basic salary for executive and non-executive staff.

##### **4.15.4 Other long term benefits - Accumulated compensated absences**

The Group also provides for compensated absences for all eligible employees in accordance with the rules of the Parent Company. The Group accounts for these benefits in the period in which the absences are earned. Employees are entitled to earned leaves of 21 days per annum. The unutilized leaves are accumulated subject to a maximum of 42 days. The unutilized accumulated leaves can be encashed at the time the employee leaves Company service. The accumulated leave balance in excess of 42 days of an employee is ignored while determining benefit obligations.

The Group uses the actuarial valuations carried out using the projected unit credit method for valuation of its accumulated compensated absences. Provisions are made annually to cover the obligation for accumulating compensated absences based on actuarial valuation and are charged to profit or loss. The amount recognised in the statement of financial position represents the present value of the defined benefit obligation. Actuarial gains and losses are charged to the consolidated statement of profit or loss immediately in the year when these occur.

#### **4.15.5 Other employee benefits**

The Parent Company's employees are offered interest free long term loans for purchase of vehicles. The term of loan ranges for a period of 3-10 years. Deductions are made from salaries as per agreed repayment schedule. The loan amount is required to be repaid immediately as the employment contract ceases on termination or resignation of the employees. The loans are secured against title of vehicles. These loans have been discounted at market rate.

#### **4.16 Foreign currency transactions and translation**

Foreign currency transactions are translated into Pak Rupees which is the Group's functional and presentation currency using the exchange rates approximating those prevailing at the date of the transaction. All monetary assets and liabilities in foreign currencies are translated into Pak Rupees using the exchange rate at the statement of financial position date. Exchange gains and losses resulting from the settlement of such transactions and from the translations at the year end, exchange rates of monetary assets and liabilities denominated in foreign currencies are taken to income. Non-monetary assets and liabilities denominated in foreign currency that are measured in terms of historical cost are translated using the exchange rates as at the date of the initial transaction.

#### **4.17 Dividends and appropriations to general reserve**

Dividends and appropriations to general reserves are recognized in the consolidated financial statements in the period in which these are approved.

#### **4.18 Earnings per share (EPS)**

Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by weighted average number of ordinary shares outstanding during the year.

Diluted EPS is calculated by adjusting basic EPS with weighted average number of ordinary shares that would be issued on conversion of all dilutive potential ordinary shares into ordinary shares and post-tax effect of changes in profit or loss attributable to ordinary shareholders of the Group that would result from conversion of all dilutive potential ordinary shares into ordinary shares.

#### **4.19 Borrowing costs**

Borrowing costs directly attributable to the acquisition, construction or production of qualifying assets, which are assets that necessarily take a substantial period of time to get ready for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying asset is deducted from the borrowing costs eligible for capitalization. All other borrowing costs are recognized in the consolidated statement of profit or loss as incurred.

#### **4.20 Government grants**

The Group recognises benefit of a government loan at a below-market rate of interest as a government grant provided there is a reasonable assurance that the grant will be received and Group will comply with all attached conditions. The benefit of loan at below market rate of interest is measured as the difference between the initial carrying value of the loan in accordance with IFRS 9 and the proceeds received. The benefit is generally accounted for and presented as deferred grant in accordance with IAS 20 as a separate line item in consolidated statement of financial position. Subsequently, the grant is recognised in the consolidated statement of profit or loss as other income, on a systematic basis over the periods in which the expenses for which the grant is intended to compensate.

**5 Use of judgments and estimates**

The preparation of these consolidated financial statements in conformity with approved accounting standards requires management to make judgments, estimates and assumptions that affect the application of policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions and judgments are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the result of which form the basis of making the judgments about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revision to accounting estimates are recognized in the period in which the estimate is revised if the revision effects only that period, or in the period of revision and future periods if the revision affects both current and future periods. The areas where various assumptions and estimates are significant to Group's financial statements are:

**24 Long term diminishing musharaka**

Berger Paints Pakistan Limited (BPPL) - Sukuk of Rs. 500 million

16,000

-

During the year ended June 30, 2022, the Parent Company issued 16 BPPL Sukuk certificates, having face value of Rs. 1 million each aggregating to Rs. 16 million and entered into a diminishing musharaka agreement with the investment agent, Pak Oman Investment Company (trustee on behalf of the Sukuk holders) as a co-owner of the musharaka assets. The issue resulted in cash receipt of subscription money of Rs. 16 million. The Sukuk certificates carry profit at the rate of 3 months KIBOR + 1.5% with quarterly rental payments. These certificates are issued for a tenure of four years and are structured in such a way that first quarterly principal repayment installment commenced from the quarter ended September 2023. Under this arrangement the Parent Company sold the beneficial ownership of the musharaka assets, its freehold land and building on freehold land, to the investment agent (for the benefit of Sukuk holders) although legal title remains with the Parent Company. The overall arrangement has been accounted for in these financial statements on the basis of substance of the transaction.

The expected return on plan assets was determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as at reporting date.

**26.1.8 Expected expense for next year**

The expected expense to the pension and gratuity schemes for the year ending June 30, 2023 works out to Rs. 9.00 million and Rs. 26.05 million respectively.

**26.1.9** The plans expose the Group to the actuarial risks such as:

**Salary risks**

The risk that the final salary at the time of cessation of service may be greater than that assumed in determination of present value of defined benefits obligations. As the benefit is calculated on the final salary (which will closely reflect inflation and other macroeconomic factors), the benefit amount increases as salary increase.

**Mortality / withdrawal risks**

The risks that the actual mortality / withdrawal experiences is different. The effect depends upon beneficiaries' service / age distribution and the entitled benefits of the beneficiary.

**Interest rate risks**

The risk that bond interest rate may be different. A decrease in bond interest rate will increase the liability, and vice versa.

**26.1.10 Actuarial assumptions sensitivity analysis**

**30 Contingencies and commitments****30.1 Contingencies****The Parent Company**

- In 1987, the Parent Company filed a suit against an ex-distributor (Asia paints) in the Sindh High Court (the court) for recovery of Rs. 8.89 million and damages amounting to Rs. 5 million on account of unpaid credit invoices for the products supplied by it to the distributor. However, the distributor in return also filed a counter claim amounting to Rs. 78.15 million against the Parent Company in the court on account of damages and compensation. The management believes on the basis of legal advice that it has a strong case and no financial obligation is expected to arise. Accordingly, no provision has been made in the consolidated financial statements.
- The Parent Company contracted Allied Engineering for installation of solar panels and solar systems at the factory. The process was to be completed in different phases. After the completion of initial phase, issues were identified in the solar systems installed. The Parent Company opted to get the solar systems installed from another vendor while inviting Allied Engineering to reach a settlement. However, Allied Engineering wanted full execution of the contract and full payment of the agreed amount, out of which Rs. 4 million is unpaid at the reporting date. The management on the basis of legal advice, believes that it has a strong case and no further financial obligation is expected to arise.
- The Sindh Revenue Board (SRB) through an assessment raised sales tax demand amounting to Rs. 39.34 million along-with penalty. Department (SRB) had inadvertently added all royalty figures appearing in accounts including royalty receivable, royalty payable, royalty expense and related party transfers for the calculation of tax on royalties. The Parent Company, through its legal counsel, filed an appeal before the Commissioner (Appeals) SRB on the grounds that amount of sales tax is not correctly calculated and the provisions of Sindh Sales Tax on Services Act, 2011 are not applicable for the reason that the Parent Company is managing its affairs from the province of Punjab. The Commissioner (Appeals) had reduced the demand to Rs. 8.18 million, against which the Parent Company had filed an appeal before Appellate Tribunal SRB which is pending adjudication. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome, hence no provision has been recorded in these consolidated financial statements.
- During 2018, the Deputy Commissioner Inland Revenue (DCIR) issued show cause notices for collection of income tax under section 236G / 236H of the Income Tax Ordinance 2001. In this regard, the taxation officer raised demand of Rs. 58.94 million for tax years 2014, 2015, 2016 and 2017 vide various assessment orders. The Parent Company through its legal counsel filed appeals to Commissioner Inland Revenue Appeals (CIR - A) against the said orders which are still pending adjudication. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome, hence no provision has been recorded in these consolidated financial statements.
- The Additional Commissioner Inland Revenue (ACIR) and Deputy Commissioner Inland Revenue (DCIR), while proceeding U/S 122 of the Income Tax Ordinance, 2001 created income tax demands amounting to Rs. 484.38 million and 213.12 million for the tax years 2014 and 2016 respectively vide two separate orders. The Parent Company filed an appeal before Commissioner Inland Revenue (Appeals), the Commissioner Inland Revenue (Appeals) remanded the case on some issues and confirmed additions to the tune of Rs. 32.99 million and Rs. 9.2 million for the tax year 2014 and 2016 respectively. The Parent Company through its legal counsel had filed an appeal before ACIR which is pending adjudication. The management believes that it has a strong arguable case and matter will be decided in favor of the Parent Company. Hence no provision has been recorded in these consolidated financial statements.

- The Commissioner Appeals - I, Lahore, vide its order for tax year 2016, deleted certain additions while remanding the case on certain issues and upheld the case on issue of contractor services which involves revenue amounting to Rs. 10.67 million. Appeal against this order has been filed which is pending adjudication. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome, hence no provision has been recorded in these consolidated financial statements.
- During the year 2016, a notice from Punjab Revenue Authority involving an amount of Rs. 11.45 million as royalty fee and technical services for the period October 2012 to March 2015 was issued which is under investigation / adjudication proceedings and no demand is raised. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome, hence no provision has been recorded in these consolidated financial statements.
- Additional Commissioner Enforcement of Punjab Revenue Authority issued assessment order creating demand of Rs. 132 million under various section of Punjab Sales Tax on Services Act 2012. However, the Parent Company through its legal counsel filed appeal before Commissioner Appeals PRA against the order of Additional Commissioner which is pending adjudication. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome, hence no provision has been recorded in these consolidated financial statements.
- The Additional Commissioner Inland Revenue (ACIR) issued order under section 122 (5A) of the Income Tax Ordinance, 2001 for tax year 2019. The Parent Company filed an appeal against the said order before Commissioner IR Appeals-I, Lahore who remanded back the case in respect of certain issues to the tune of Rs. 22.81 million which is pending adjudication, deleted certain additions and upheld the disallowance of initial allowance claimed amounting to Rs. 1.7 million. The Parent Company has filed appeal before ATIR against this disallowance which is pending adjudication. The management on the basis of opinion of the tax advisor is hopeful for a favorable outcome, hence no provision has been recorded in these consolidated financial statements.
- DCIR raised a demand amounting to Rs. 10.5 million in relation to sales tax on sales of scrap stock burnt in fire in 2008 which was upheld by Commissioner Appeals. This demand was later reduced by Appellate Tribunal up to the demand pertaining to sales tax on fixed assets. The Parent Company being aggrieved by the order of ATIR, filed an appeal before honorable Lahore high court which was remanded back to the ATIR and is pending adjudication. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome, hence no provision has been recorded in these consolidated financial statements.
- The DCIR passed order under section 161(1) for tax year 2014 and raised a demand amounting to Rs. 33.5 million. The Parent Company filed an appeal before the Commissioner Inland Revenue (Appeals). The Appeals remanded back the case to the department for further assessment. Currently, no demand is in field against the Parent Company.
- Various cases on account of income tax and sales tax matters involving an amount Rs. 11.401 million are also pending. The management on the basis of opinion of the tax advisor is hopeful of a favorable outcome in all these cases, hence no provision has been recorded in these consolidated financial statements.

## 46 Financial instruments - Fair values and risk management

### 46.1 Risk management of financial instruments

The Group finances its operations through equity, borrowings and management of working capital with a view to obtain a reasonable mix between the various sources of finance to minimize the finance related risks to the entity.

The Group has exposure to the following risks from its use of financial instruments:

- Market risk
- Credit risk
- Liquidity risk

The Group's overall risk management policy focuses on the unpredictability of financial markets and seeks to minimize potential adverse effects on the Group's financial performance.

#### 46.1.1 Risk management framework

The Board of Directors have the overall responsibility for the establishment and oversight of Group's risk management framework. The Board is also responsible for developing and monitoring the Group's risk management policies.

The Group's risk management policies are established to identify and analyze the risks faced by the Group, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect to changes in market conditions and the Group's activities. The Group through its training and management standards and procedures aims to maintain a disciplined and constructive control environment in which employees understand their roles and responsibilities.

The Group's audit committee oversees how management monitors compliance with the Group's risk management policies and procedures and reviews the adequacy of the risk management framework in relation to the risks faced by the Group. Audit committee is assisted in its oversight role by internal audit department. Internal audit department undertakes both regular and adhoc reviews of risk management controls and procedures, the results of which are reported to the audit committee.

#### 46.1.2 Market risk

Market risk is the risk that changes in market prices, such as foreign exchange rates, interest rates and equity prices will affect the Group's profit or loss or value of its holding of financial instruments. The objective of market risk management is to manage and control market risk exposures with acceptable parameters, while optimizing return.

##### 46.1.2.1 Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates. Currency risk arises mainly from future commercial transactions or receivables and payables that exist due to transactions in foreign currencies.

The Group is exposed to currency risk arising from various currency exposures, primarily with respect to the Euro (EUR), RMB (Chinese Yuan), United States Dollar (USD) and Japanese Yen (JPY). Currently, the Group's foreign exchange risk exposure is restricted to the amounts payable to foreign entities.

**2022      2021**  
**(Amount in thousand)**

The Group's exposure to foreign exchange risk is as follows:

**Statement of financial position items**

**Trade and other payables**

- Euro	21	62
- USD	406	1,822
- RMB	-	935
- JPY	387	387

**Off statement of financial position items**

Outstanding letters of credit as at the year end are as follows:

- Euro	4	-
- USD	3,139	669
- RMB	-	69
- JPY	-	-

**2022      2021**

**(In rupees)**

The following significant exchange rates were applied during the year:

**Rupees per Euro**

Average rate for the year	201.26	188.66
Reporting date rate	213.81	188.71

**Rupees per USD**

Average rate for the year	181.58	163.18
Reporting date rate	204.85	158.30

**Rupees per RMB**

Average rate for the year	27.50	24.08
Reporting date rate	30.60	24.39

**Rupees per JPY**

Average rate for the year	1.47	1.50
Reporting date rate	1.50	1.43

**Sensitivity analysis**

At reporting date, if the PKR had strengthened by one rupee against the foreign currencies with all other variables held constant, profit after tax for the year would have been higher by the amount shown below, mainly as a result of net foreign exchange gain on translation of foreign currency loans.

	2022	2021
	(Amount in thousand)	
<b>Effect on profit or loss</b>		
- Euro	15	44
- USD	288	664
- RMB	-	1,294
- JPY	275	275

The weakening of the PKR against foreign currencies would have had an equal but opposite impact on the post tax profit.

The sensitivity analysis prepared is not necessarily indicative of the effects on profit / (loss) for the year and assets / liabilities of the Group.

#### 46.1.2.2 Price risk

Other price risk represents the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market. The Group is not exposed to commodity price risk since it has a diverse portfolio of commodity suppliers.

#### Sensitivity analysis

The Group's investments in equity instrument of other entities are publicly traded on the PSX. The summary below explains the impact of increase on the Group's surplus on investment classified as FVOCI to change in market price. The analysis is based on the assumption that the market price had increased by 10% with all other variables held constant:

	Impact on equity	
	2022	2021
	(Rupees in thousands)	
Buxly Paints Limited	3,346	1,505

The sensitivity analysis prepared is not necessarily indicative of the effects on profit after tax for the year and assets / liabilities of the Group.

#### 46.1.2.3 Interest rate risk

Interest rate risk is the risk that fair values or future cash flows of a financial instrument will fluctuate because of changes in interest rates. Significant interest rate risk exposures are primarily managed by a mix of borrowings at variable interest rates. Sensitivity to interest rate risk arises from mismatch of financial assets and financial liabilities that mature or re-price in a given period.

	Effective rate		Carrying amount	
	2022 (Percentage)	2021	2022 (Rupees in thousands)	2021
<b>Financial assets</b>				
<b>Fixed rate instruments</b>

Short term financing - secured	8.51% to 15.41%	8.16% to 9.37%	255,552	60,700
Short term running finance - secured	8.70% to 15.66%	8.03% to 12.94%	1,118,387	786,805
			1,467,368	962,099

#### Cash flow sensitivity analysis for fixed rate instruments

The Group does not account for any fixed rates financial assets and liabilities at fair value through profit or loss. Therefore, a change in profit / mark-up / interest rates at the reporting date would not affect profit or loss.

#### Cash flow sensitivity analysis for variable rate instruments

A change of 100 basis points in interest rates at the reporting date would have increased / (decreased) profit for the year by the amounts shown below. This analysis assumes that all other variables, in particular foreign currency rates, remain constant. The analysis is performed on the same basis as for 2022.

	100 bps	
	Decrease	Increase
As at June 30, 2022	10,418	(10,418)
As at June 30, 2021	6,831	(6,831)

The sensitivity analysis prepared is not necessarily indicative of the effects on profit after tax for the year and assets / liabilities of the Group.

#### 46.1.3 Credit risk

Credit risk represents the financial loss that would be recognized at the reporting date if the counterparties fail completely to perform as contracted / fail to discharge an obligation / commitment that it has entered into with the Group. Concentration of credit risk arises when a number of counterparties are engaged in similar business activities, or have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Concentration of credit risk indicates the relative sensitivity of a company's performance to developments affecting a particular industry.

Short term investment - secured	140,000	30,000
Bank balances	223,311	45,149
	2,213,400	1,603,884

#### Concentration of credit risk

The Group identifies concentrations of credit risk by reference to type of counter party. Maximum exposure to credit risk by type of counterparty is as follows:

	2022	2021
	(Rupees in thousand)	
Trade debts	1,701,094	1,276,577
Banking companies and financial institutions	363,311	185,149
Others	148,995	142,158
	2,213,400	1,603,884

#### 46.1.3.1 Trade deposits and other receivables

Deposits and other receivables represents deposits held by government institutions and vendors. The Group has assessed, based on historical experience, that the expected credit loss associated with these financial assets is generally trivial. Hence, no additional allowance has been recognised in these consolidated financial statements.

#### 46.1.3.2 Receivable from related party

The Group uses an allowance matrix to measure ECLs on receivables from related parties. Loss rates are determined using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency. The future recoveries from related parties are accounted for in calculating the loss rate.

#### 46.1.3.3 Long term loans

Long term loans are due from employees of the Group and are secured against assets. Hence, the management believes that no impairment allowance is necessary in respect of these loans.

#### 46.1.3.4 Trade debts

The Group uses an allowance matrix to measure ECLs of trade debts. Loss rates are calculated using a 'roll rate' method based on the probability of a receivable progressing through successive stages of delinquency. The future recoveries from trade debtors are accounted for in calculating the loss rate.

	Weighted average loss rate	Gross carrying amount	Loss allowance

Past due over one year	70.22%	211,661	148,638
		1,497,693	221,116

#### 46.1.3.5 Balances with banking companies

The Group held balances with banks, short term investments and LC margin amounting to Rs. 363.311 million as at June 30, 2022. These are held with banks and financial institutions counterparties, which are rated A1 to AAA, based on credit ratings from rating agencies.

Impairment on these financial assets has been measured on a 12 month expected loss basis and reflects short term maturities of the exposure. The Group considers that these balances have low credit risk based on the external ratings of the counterparties.

12 month probabilities of default are based on historical data supplied by PACRA and VIS rating agency for each credit rating. Loss given default (LGD) parameters generally reflect assumed recovery rates based on recovery rates assumed in Basel Guidelines for unsecured exposures.

	2022	2021
	(Rupees in thousand)	
Bank Balances	223,311	45,149
Short term investment	140,000	30,000

	363,311	185,149

#### 46.1.3.6 Credit quality of financial assets

The credit quality of bank balances that are neither past due nor impaired can be assessed by reference to external credit ratings or to historical information about counterparty default rate:

Banks	Rating		Rating Agency	2022	2021
	Short term	Long term		(Rupees in thousand)

Samba Bank Limited	AA	A-1	VIS	9	-
Faysal Bank Limited	A-1+	AA	PACRA	2,535	9,911
				363,311	185,149

The Group has not recognised an impairment allowance on bank balances during the year ended June 30, 2022, as the impact was immaterial.

#### 46.1.4 Liquidity risk

Liquidity risk is the risk that the Group will encounter difficulty in meeting obligations associated with financial liabilities, that are settled by delivering cash or other financial asset, or that such obligation will have to be settled in a manner unfavorable to Group. The Group's approach to managing liquidity is to ensure, as far as possible that it will always have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions. The Group finances its operations through equity, borrowings and working capital with a view to maintaining an appropriate mix between various sources of finance to minimize risk. The management aims to maintain flexibility in funding by keeping regular committed credit limits.

The following are the contractual maturities of financial liabilities as at June 30, 2022

	Carrying amount	Contractual cash flow	Less than one year	Two to five years	More than five years
<b>Non derivative financial liabilities</b>

It is not expected that the cash flows on the maturity analysis could occur significantly earlier, or at significant different amount.

#### 46.2 Fair value measurement of financial instruments

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Underlying the definition of fair value is the presumption that the Group is a going concern and there is no intention or requirement to curtail materially the scale of its operations or to undertake a transaction on adverse terms.

A financial instrument is regarded as quoted in an active market if quoted price is readily and regularly available from an exchange dealer, broker, industry group, pricing service, or regulatory agency, and that price represents actual and regularly occurring market transactions on an arm's length basis.

IFRS 13 'Fair Value Measurement' requires the Group to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Quoted prices (unadjusted) in active markets for identical assets or liabilities that entity can access at measurement date (Level 1)
- Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices) (level 2)
- Inputs for the asset or liability that are not based on observable market data (i.e. unobservable) inputs (Level 3)

Transfer between levels of the fair value hierarchy are recognised at the end of the reporting period during which the changes have occurred.

The following table shows the carrying amounts and fair values of financial assets and financial liabilities, including their levels in the fair value hierarchy. It does not include fair value information for financial assets and financial liabilities not measured at fair value if the carrying amount is a reasonable approximation of fair value.

**46.3 Fair value versus carrying amounts**

The Group has not disclosed the fair values of financial assets and liabilities which are for short term or repriced over short term. Therefore, their carrying amounts are reasonable approximation of fair value.

**46.4** Freehold land, leasehold land, building on freehold land, building on leasehold land and plant and machinery have been carried at revalued amounts determined by professional valuers (level 3 measurement) based on their assessment of the values as disclosed. The valuations are conducted by an independent valuation expert appointed by the Group. The valuation expert used a market based approach to arrive at the fair value of the Group's land and building. The valuation was determined by reference to current market value of the similar properties / assets. The most significant input into this valuation approach is price per acre for land, price per square foot for buildings and present operational condition and age of plant and machinery respectively. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty, accordingly a qualitative disclosure of sensitivity has not been presented in these consolidated financial statements.

**47 Capital risk management**

The Group's objectives when managing capital is to safeguard the Group's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders through repurchase of shares, issue new shares or sell assets to reduce debt. Consistent with others in the industry and the requirements of the lenders, the Group monitors the capital structure on the basis of gearing ratio.

This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings including current and non-current borrowings. Total capital is calculated as 'equity' as shown in the consolidated statement of financial position plus net debt. The gearing ratios as at year end are as follows:

	<b>2022</b>	<b>2021</b>
	<b>(Rupees in thousand)</b>	
Long term loans	250,953	260,382
Short term borrowings	1,373,939	847,505

The capacity of the plant is indeterminable because it is a multi product plant involving varying processes of manufacturing. Actual production includes resin production of 19.41 million liters (2021: 17.12 million liters) which is used in the manufacturing of the final product.

#### 50 Operating segments

- 50.1** These consolidated financial statements have been prepared on the basis of single reportable segment.
- 50.2** Revenue from sale of paints and allied represents 100% (2021: 99.50%) of the total revenue of the Group.
- 50.3** 99.88% (2021: 98.94%) sales of the Group relates to customers in Pakistan.
- 50.4** All non-current assets of the Group as at June 30, 2022 are located in Pakistan.

#### 51 Date of authorization for issue

These consolidated financial statements were authorized for issue on September 28, 2022 by the Board of Directors of the Group.

#### 52 Non adjusting events after the balance sheet date
